Women's Health and Fitness Guide Michele Kettles, Colette L. Cole, Brenda S. Wright, 2006 Examining the benefits of exercise for women from osteoporosis prevention to reducing the risk of cardiovascular disease this book reviews the physiological fitness differences between men and women It also helps women to tailor an exercise programme to their stage in life adolescence pre menopause menopause post menopause and ageing

Body Mechanics - Beginner's Guide to Fitness Mark R. Hailey, 2009-11 For many people the thought of getting into shape or just the act of exercising for that matter is like throwing a speeding locomotive into reverse An enormous amount of energy has to come to a loud grinding halt in a short period of time and then slowly begin to move in the opposite direction Getting into shape biologically is a relatively easy process the hard part more often than not is simply getting started Being physically fit takes commitment discipline concentration and an overall desire to succeed Making the commitment to physical fitness in many ways presents a greater challenge than the weights and workout routines that will follow and in the beginning many people make the mistake of training too hard and too fast causing soreness frustration and discouragement Walking blindly into a gym and grabbing a piece of equipment in the hopes that something will happen will never work To achieve your fitness goals you need to plan your work and work your plan *Body Mechanics Beginner s Guide to Fitness* helps you create that plan by helping you understand your body and the changes beginning an exercise program will play upon it *Body Mechanics Beginner s Guide to Fitness* covers the importance of making a commitment to exercise and what results you can expect in the first month How to keep up your motivation and develop a fitness program that is right for you Understanding the importance of weight training and cardiovascular training and how to get the maximum benefits of both Knowing the muscles in the human body and detailed instructions on performing different exercises to work each one employing proper form to achieve maximum results
