Baby On Board Understanding What Your Baby Needs:

Baby on Board Dr Howard Chilton, Georgina Dowden, 2020-09-07 It's the only book you'll need in your baby's first year. Packed with practical advice, *Baby on Board* is a must-read for all mums and dads. Babies have basic biological needs which parents must meet. *Baby on Board* outlines these needs clearly and explains the biological science underpinning them. This wonderful book gives parents the confidence they need to derive for themselves how to parent their baby successfully. It helps them navigate the endless advice directed their way by well-meaning family friends and passers-by. One issue that causes parents the most anguish, how to settle their distressed and crying baby, is explored in detail. Written in an accessible and frequently humorous way, Dr Chilton explains the fundamentals of parenting based on science and his forty years' experience as a neonatologist. He also explores the fascinating subject of how babies evolved over the millennia, what they perceive and how they are programmed for survival. This expanded edition has new chapters on the introduction of solids, how to play with your baby and the essential drivers of baby sleep and how to enhance them. Many other chapters have been revised and updated. Dr Chilton's daughter, Georgina Dowden, with whom he collaborates professionally, has extensively rewritten the breastfeeding chapter. She has also contributed many useful additions with her influence evident throughout the book.

Understanding Your Baby Sophie Boswell, 2004 Why do some mothers and babies take to breast-feeding while others don't? And what are the emotions involved for mother and baby when the baby rejects a feed or when breast-feeding stops? What happens when parents and their babies have to negotiate separations or deal with night-time crying? What if your baby's distress makes you feel that you cannot cope? This book takes the reader through the entire first year of a baby's life, anticipating parents' questions and covering topics ranging from parental feelings during pregnancy to a 10-month-old's sociability and deepening relationships.
