Bad Beekeeping:

Bad Beekeeping Ron Miksha, 2004 A million pounds of honey Produced by a billion bees This memoir reconstructs the life of a young man from Pennsylvania as he drops into the bald prairie badlands of southern Saskatchewan He buys a honey ranch and keeps the bees that make the honey But he also spends winters in Florida swamps nurse maid to ten thousand dainty queen bees From the dusty Canadian prairie to the thick palmetto swamps of the American south the reader meets with simple folks who shape the protagonist s character including a Cree rancher with three sons playing NHL hockey a Hutterite preacher who yearns to roam the globe a reclusive bee eating homesteader and a grey headed widow who grows grapefruit plays a nasty game of scrabble and lives with four vicious dogs Encompassing a ten year period this true story evolves from the earnest inexperience of the young man as he learns an art and builds a business Carefully researched natural biology runs counterpoint to human social activities Bee craft serves as the setting for expositions that contrast American and Canadian lifestyles while exemplifying the harsh reality of a man working with and against the physical environment

Confessions of a Bad Beekeeper Bill Turnbull, 2011-05-10 The popular host of BBC Breakfast recounts his many misadventures as a backyard beekeeper A truly wonderful read Diana Sammataro PhD coauthor of The Beekeeper s Handbook Bill Turnbull had no intention of becoming a beekeeper But when he saw an ad for beekeeping classes after a swarm of bees landed in his suburban backyard it seemed to be a sign Despite being stung on the head twice at his first hands on beekeeping class Turnbull found himself falling in love with the fascinating infuriating honeybee As a new beekeeper Turnbull misplaced essential equipment got stung more times and in more places than he cares to remember and once even lost some bees up a chimney But he kept at it with a ready sense of humor and Zen like acceptance of every mishap And somehow along the way he learned a great deal about himself and the world around him Confessions of a Bad Beekeeper chronicles Turnbull s often hilarious and occasionally triumphant adventures in the curious world of backyard beekeeping Along the way he offers plenty of hard won apiarian wisdom and highlights both the threat to our bee population and what we can do to help these vital little creatures do their wonderful work

Modern Beekeeping Ramón Eduardo Rebolledo Ranz, 2020-08-26 Beekeeping worldwide has seen remarkable development in the face of the growing demand for products from bees by consumers who demand increasingly innocuous products that do not harm the environment However it should be noted that recently problems have arisen in beekeeping production that could become restrictive factors for the worldwide development of beekeeping This book includes in simple and accessible terms very relevant topics such as the effect of pesticides the impact of diseases and their management production and analysis of pollen present in honey DNA analysis and sustainable management among others This book is answering an expected need for accurate and international information for the productive sector

Annual Report of the Bee-keepers' Association of the Province of Ontario, 1921 *Annual Report of the Bee-Keepers' Association of the Province of Ontario* Ontario Beekeepers' Association, 1917 Capitalist Agriculture and the Global Bee Crisis Rebecca Ellis, 2022-09-14 Capitalist agriculture relies heavily on the pollination work of bees but this system harms bees in innumerable ways Indeed human agriculture is one of the main culprits for the declining populations of wild bees and the declining health of honeybees This book presents a political ecology of pollination that critically examines how managed honey bees and wild bees are harmed by capitalist agriculture The book focuses on the three most urgent

problems the standardization and simplification of landscapes through monocultures the use of pesticides including neonicotinoids other insecticides herbicides and fungicides and the embeddedness of commercial migratory beekeeping in the capitalist agriculture system which among other things has the potential to spread pests and pathogens across continents At the heart of this crisis is the power and influence that a small group of agrochemical corporations have over national and international agricultural policy The book argues for an interspecies alliance of small scale farmers bee advocates beekeepers environmentalists and bees themselves along with a vision for an agricultural system that nurtures multispecies flourishing This book will be of significant interest to readers of political ecology animal geography environmental anthropology food system studies and critical animal studies
