About Religion Economies Of Faith In Virtual Culture:

About Religion Mark C. Taylor, 1999 About Religion Mark C. Taylor, 1999-07 Religion Mark C Taylor maintains is most interesting where it is least obvious From global financial networks to the casinos of Las Vegas from images flickering on computer terminals to steel sculpture material culture bears unexpected traces of the divine In a world where the economies of faith are obscure yet pervasive Taylor shows that approaching religion directly is less instructive than thinking about it Traveling from high culture to pop culture and back again *About Religion* approaches cyberspace and Las Vegas through Hegel and Kant and reads Melville's *The Confidence Man* through the film *Wall Street* As astonishing juxtapositions and associations proliferate formerly uncharted territories of virtual culture disclose theological vestiges showing that faith in contemporary culture is as unavoidable as it is elusive The most accessible presentation of Taylor's revolutionary ideas to date *About Religion* gives us a dazzling and disturbing vision of life at the end of the old and beginning of the new millennium

Religion and Cyberspace Morten Hojsgaard, Margit Warburg, 2005-09-15 In the twenty first century religious life is increasingly moving from churches mosques and temples onto the Internet Today anyone can go online and seek a new form of religious expression without ever encountering a physical place of worship or an ordained teacher or priest The digital age offers virtual worship cyber prayers and talk boards for all of the major world faiths as well as for pagan organisations and new religious movements It also abounds with misinformation religious bigotry and information terrorism Scholars of religion need to understand the emerging forum that the web offers to religion and the kinds of religious and social interaction that it enables *Religion and Cyberspace* explores how religious individuals and groups are responding to the opportunities and challenges that cyberspace brings It asks how religious experience is generated and enacted online and how faith is shaped by factors such as limitless choice lack of religious authority and the conflict between recognised and non recognised forms of worship Combining case studies with the latest theory its twelve chapters examine topics including the history of online worship virtuality versus reality in cyberspace religious conflict in digital contexts and the construction of religious identity online Focusing on key themes in this groundbreaking area it is an ideal introduction to the fascinating questions that religion on the Internet presents Bibles and Baedekers Michael Grimshaw, 2014-12-05 Contemporary tourism and travel

have become a form of religion a new opiate of the masses However could Church and theology be religious forms of tourism and travel *Bibles and Baedekers* offers a theology of tourism and exile for a modern and postmodern world It examines the ways in which location identity and movement have made use of religious texts and metaphor and questions the relative absence of secular texts and ideas in theology The theology of the tourist and traveller is one of new experiences the acquisition of identity through movement *Bibles and Baedekers* uniquely applies this to the postmodern Christian embodying the fulfilment of Bonhoeffer's religionless Christianity dislocated from both a secular and religious world **Moral Matters** Mark Dooley, 2015-07-30 *Moral Matters* A Philosophy of Homecoming is Mark Dooley's attempt to offer an alternative to

Cyberia It is a book about home memory and identity At a time when people are rapidly disengaging from those forms of life which once bound them together it can be argued that our happiness depends on saving and conserving them We cannot flourish in isolation or by detaching from the social sphere which surrounds us We cannot truly prosper or progress if we choose to forget where we came from or if we dismiss our inherited moral wisdom And yet in opting for loss separation and homelessness it seems we have done just that We have opted for a rootless existence where alienation and amnesia are the norm This powerful and passionate book shows how the alienated postmodern self can become re rooted to time and place and restored to full humanity and happiness whilst moving in a virtual hyperconnected world In caring for creation conserving culture and saving the sacred we can once again make our home in the world and experience the consolation of moving from loss to love

With Gifted Thinkers Mark Manolopoulos,2009 This book is a collection of engaging entertaining and often confronting dialogues with nine thinkers of faith in postmodernity some of them more prominent than others all of them possessing the rare quality or gift of thinking rigorously tentatively passionately John D Caputo Kevin Hart Robyn Horner Richard Kearney Catherine Keller Kate Rigby Mark C Taylor Mark I Wallace and Merold Westphal The project was driven by two ambitions to seek out their thoughts on the question of the gift which has become a hot topic since the early 1990s in philosophy theology and a whole range of academic disciplines and which was the subject of the interviewer s doctoral work and more generally to examine key elements of these thinkers most important works Hence the dialogues traverse a splendid range of issues philosophical theological ecological hermeneutical biblical scientific and more What s more the dialogical medium has the advantage of casting complex issues in extremely accessible terms thereby making this collection a must read for anyone interested in contemporary Continental theory

The Emotional Logic of Capitalism Martijn Konings,2015-05-27 The capitalist market progressives bemoan is a cold monster it disrupts social bonds erodes emotional attachments and imposes an abstract utilitarian rationality But what if such hallowed critiques are completely misleading This book argues that the production of new sources of faith and enchantment is crucial to the dynamics of the capitalist economy Distinctively secular patterns of attraction and attachment give modern institutions a binding force that was not available to more traditional forms of rule Elaborating his alternative approach through an engagement with the semiotics of money and the genealogy of economy Martijn Konings uncovers capitalism s emotional and theological content in order to understand the paradoxical sources of cohesion and legitimacy that it commands In developing this perspective he draws on pragmatist thought to rework and revitalize the Marxist critique of capitalism

The Crisis of Colonial Anglicanism Martyn Percy,2025-01-16 This book offers a fresh bold and unsettling truth the British Empire and Great Britain are primarily English constructions and the Church of England has presumed to act for and benefit from English enterprise and exploitation serving as the spiritual arm of the imperial project English Anglicanism has developed itself as the lead character within its own serious fiction the main religious player in a drama of Church and Empire Yet in collusion with

colonialism it is now a prisoner of its own historical amnesia Martyn Percy examines the English interests concealed in appeals to Britishness and shows how slavery exploitation classism and racism played their part in the elitist and hierarchical worldviews propagated by the English to bolster both Empire and Church Yet by regarding the rest of the world as lesser both institutions have slowly degenerated in global standing Now Britain and the Church of England are no more than minor national players on the world stage Religious social and political imperialism are founded on the deprecation of others Yet those peoples who were once looked down upon have fought for equality and independence Today the worldwide Anglican Communion faces a new era of moral reckoning

Marks of the Beast Glenn W. Shuck, 2005 The Left Behind series by Tim LaHaye and Jerry B Jenkins has become a popular culture phenomenon selling an astonishing 40 million copies to date These novels written by two well known evangelical Christians depict the experiences of those left behind in the aftermath of the Rapture when Christ removes true believers leaving everyone else to suffer seven years of Tribulation under Satan's proxy Antichrist In Marks of the Beast Shuck uncovers the reasons behind the books unprecedented appeal assessing why the novels have achieved a status within the evangelical community even greater than Hal Lindsey's 1970 blockbuster The Late Great Planet Earth It also explores what we can learn from them about evangelical Christianity in America Shuck finds that ironically the series not only reflects contemporary trends within conservative evangelicalism but also encourages readers especially evangelicals to embrace solutions that enact rather than engage their fears Most strikingly he shows how the ultimate vision put forth by the series authors inadvertently undermines itself as the series unfolds

After God Mark C. Taylor, 2009-03 With fundamentalists dominating the headlines and scientists arguing about the biological and neurological basis of faith religion is the topic of the day But religion Mark C Taylor shows is more complicated than either its defenders or critics think and indeed is much more influential than any of us realize Our world Taylor maintains is shaped by religion even when it is least obvious Faith and value he insists are unavoidable and inextricably interrelated for believers and nonbelievers alike Using scientific theories of dynamical systems and complex adaptive networks for cultural and theological analysis After God redefines religion for our contemporary age Taylor begins by asking a critical question What is religion He then proceeds to explain how Protestant ideas in particular undergird the character and structure of our global information society the Reformation Taylor argues was an information and communications revolution that effectively prepared the way for the media revolution at the end of the twentieth century Taylor's breathtaking account of religious ideas allows us to understand for the first time that contemporary notions of atheism and the secular are already implicit in classical Christology and Trinitarian theology Weaving together theoretical analysis and historical interpretation Taylor demonstrates the codependence and coevolution of traditional religious beliefs and practices with modern literature art architecture information technologies media financial markets and theoretical biology After God concludes with prescriptions for new ways of thinking and acting If we are to negotiate the perils of the twenty first century Taylor contends we must refigure the

symbolic networks that inform our policies and guide our actions A religion without God creates the possibility of an ethics without absolutes that leads to the promotion of creativity and life in an ever more fragile world Publisher description
