Rubin, Debra J. Pepler, 2013-05-13 Comprised of papers and commentaries from the Earls court Symposium on Childhood Aggression held in Toronto Canada this volume reflects the Earls court Child and Family Centre s commitment to linking clinical practice to identifiable research based interventions which are known to be effective in the prevention and treatment of antisocial behavior in children The education of human services professionals has typically failed to train individuals to work with specific client populations providing a generalist approach grounded in theoretical assumptions and professional values rather than research and empirical studies This compelling book serves to fill this gap in professional education in the area of childhood aggression Representing substantial accomplishments in the advancement of an understanding of the plight of aggressive children and how best to ameliorate their often unpredictable and painful situations this text allows for cautious
