This text highlights what is known about the developmental trajectory of each condition. Such a focus is instrumental in

helping students gain some insight into the etiology of maladaptive conditions Third Beidel integrates biological findings with findings from social and behavioral sciences to foster the perspective that abnormal behavior is complex and subject to many different forces and highlight how these variables often interact in a reciprocal fashion Fourth scientific findings with respect to race and gender are discussed with respect to each condition This includes a discussion of prevalence differences in symptom manifestation and any known etiological differences Importantly an effort is made to bring to life the nature of these conditions by providing vivid clinical descriptions In addition to short descriptions used liberally throughout each chapter a fully integrated case study is presented at the end of each chapter again illustrating the interplay of biological psychosocial and emotional factors MyPsychLab contains study tools such as flashcards self tests videos as well as Speaking Out DSM in Context which ties real patient interview videos to specific content from the DSM IV helping students understand how the DSM IV criteria applies to real people experiencing disorders MyPsychLab is available at www.mypsychlab.com Visit the Beidel preview website to view a sample chapter sample Speaking Out DSM in Context videos watch an interview with the author read reviewer quotes and much more <http://www.pearsonhighered.com/showcase/beidel1e> Find us on Facebook Login and search for Beidel Bulik Stanley Abnormal Psychology **Abnormal Psych.
