

About Face

K Morrison

About Face:

About Face Jonathan Cole, 1999-02-18 What is special about the face and what happens when neurological conditions make expression or comprehension of the face unavailable Through a mix of science autobiography case studies and speculation Jonathan Cole shows the importance not only of facial expressions for communication among individuals but also of facial embodiment for our sense of self He presents in his words a natural history of the face and an unnatural history of those who live without it The heart of the book lies in the experiences of people with facial losses of various kinds The case studies are of blind autistic and neurologically impaired persons the most extreme case involves Mobius syndrome in which individuals are born with a total inability to move their facial muscles and hence to make facial expressions Cole suggests that it is only by studying such personal narratives of loss that we can understand facial function and something of what all our faces reflect

About Face Christopher L. Flanders, 2011-03-07 For Thais face is a fact writes Flanders However whether in theology evangelism or issues involving sin salvation or atonement Thai Christians and missionaries alike seem either uninterested in or possibly incapable of addressing issues related to face This glaring incongruity between the value of face for Thais and the lack of intentional engagement within the Thai Christian community is deeply troubling Surely such a lack of careful attention to face is a dangerous posture Uncritical views of face furtively attaching to the theology of the Thai church are potentially detrimental for its life and mission Such seems to be an unavoidable situation without proper attention to face Additionally to ignore face is to run the risk of missing valuable cultural resources implicit in the Thai experience of face for the critical task of authentic Thai theological reflection This lack of engagement with face raises critical issues with which we must wrestle How is it that such a central sociocultural issue has not been a more significant part of the Thai Christian vocabulary or experience How pervasive are these negative attitudes regarding face What lies behind them Might this lack of self conscious engagement with face have any relationship to the persistent Thai perception of Christianity as a foreign Western religion How should Christians understand this notion of face and how it relates to the ways we understand and proclaim the gospel

About Face William Giraldi, 2022-09-06 A tragicomic novel of a fame obsessed American society yet again on the brink Evoking such classics as *Elmer Gantry* and *The Day of the Locust* William Giraldi's *About Face* boldly transfers the perennial literary themes of celebrity ambition and obsession to twenty first century Boston There we meet Val Face a charismatic self help guru who captivates multitudes with his uncanny ability to heal adherents using only the power of his words the mysterious touch of his hands and the transcendent beauty of his face Assigned to write a profile of Val Face during his much hyped New England tour thirty year old impoverished journalist Seger Jovi pens a brutal hatchet job But Seger at once curious and incredulous is soon sucked into the mystic's vortex of fame becoming a devotee himself as he contends with the machinations and absurdities of Face's many protectors from beefcake bodyguards to helicoptering handlers to Face's unwavering spouse Nimble At first unwilling to sacrifice his principles to fulfill his own ambition and rise

from privation then touched by Face's unexpected humanity Seger oscillates between acting as Face's cynical foil and becoming his unlikely ally Just as the exalted guru appears to be reaching the apex of his powers danger threatens from the periphery in the form of an obsessive stalker who wants Face dead To curb this stalker before he can do harm Face's security team enlists the aid of Jackie Jaworski an ex Marine and resourceful Boston detective who moonlights as a novelist of thrillers And so About Face building to a denouement that will astonish readers takes us into the convergence of violence and fame that has come to define so much of American popular culture over the last half century With its indelible array of characters hypnotic pacing and shocking conclusion and a mesmerizing prose style that is downright pyrotechnic in its brilliance Andre Dubus III About Face is a novel in the grand tradition that dances along the tenuous line between the sacred and the profane

About Face Dorinne Kondo, 2014-09-03 From the runways of Paris to the casting controversies over BMiss Saigon from a local demonstration at the Claremont Colleges in California to the gender blending of BM Butterfly BAbout Face examines representations of Asia and their reverberations in both Asia and Asian American lives Japanese high fashion and Asian American theater become points of entry into the politics of pleasure the performance of racial identities and the possibility of political intervention in commodity capitalism Based on Kondo's fieldwork this interdisciplinary work brings together essays interviews with designer Rei Kawakubo of Comme des Garçons and playwright David Henry Hwang and personal vignettes in its exploration of counter Orientalisms

About Face Dan Hill, 2010-09-03 Once advertising was all about being on message and getting talking points right But breakthroughs in brain science have confirmed what we all know but don't often admit to in business people are primarily emotional decision makers From podcasting blogs and forums to interactive ads in stations the heart of the matter is now the consumer's experience as opposed to the company's marketing message About Face shows how 21st century advertising can realize success by being on emotion first and foremost Using data from eye tracking and facial coding to analyse consumer responses About Face demonstrates exactly which advertising strategies are successful and why Moving beyond the old Ps of product price place and promotion Dan Hill outlines ten rules for emotionally effective advertising including simplicity familiarity relevancy and believability Emotions rule decision making About Face shows you that by focussing on the three new Ps of passion purpose and personality your campaigns can become more effective and emotionally engaging taking you closer to the consumer

About Face David H. Hackworth, 2020-09-29 Called everything a war memoir could possibly be by The New York Times this all time classic of the military memoir genre now includes a new forward from bestselling author and retired Navy SEAL Jocko Willink Whether he was fifteen years old or forty David Hackworth devoted his life to the US Army and quickly became a living legend However he appeared on TV in 1971 to decry the doomed war effort in Vietnam From Korea to Berlin and the Cuban missile crisis to Vietnam Hackworth's story is that of an exemplary patriot played against the backdrop of the changing fortunes of America and the US military This memoir is the stunning indictment of the Pentagon's fundamental misunderstanding of the Vietnam conflict and of the

bureaucracy of self interest that fueled the war With About Face Hackworth has written what many Vietnam veterans have called the most important book of their generation and presents a vivid and powerful portrait of patriotism **About Face**

Richard T. Gray,2004 A critical history of physiognomic thought in German speaking Europe that traces the roots of twentieth century racial profiling to the Enlightenment Once associated with astrology and occultist prophecy the art of interpreting personal character based on facial and other physical features dates back to antiquity About Face tells the intriguing story of how physiognomics became particularly popular during the Enlightenment no longer as a mere parlor game but as an empirically grounded discipline The story expands to illuminate an entire tradition within German culture stretching from Goethe to the rise of Nazism In About Face Richard T Gray explores the dialectical reversal from the occult to the scientific realm that entered physiognomic thought in the late eighteenth century beginning with the positivistic writings of the Swiss pastor Johann Caspar Lavater Originally claimed to promote understanding and love physiognomics devolved into a system aimed at valorizing a specific set of physical moral and emotional traits and stamping everything else as deviant This development not only reinforced racial national and characterological prejudices but lent such beliefs a presumably scientific grounding In the period following World War I physiognomics experienced yet another unprecedented boom in popularity Gray explains how physiognomics had by then become a highly respected super discipline that embraced many prominent strands of German thought the Romantic philosophy of nature the life philosophy propagated by Dilthey and Nietzsche the cultural pessimism of Schopenhauer Husserl's method of intuitive observation Freudian psychoanalysis and early twentieth century eugenics and racial biology A rich exploration of German culture About Face offers fresh insight into the intellectual climate that allowed the dangerous thinking of National Socialism to take hold **About Face** Elena Bellina,Lindsay Eufusia,Paola Ugolini,2009-10-02 How do we represent ourselves and the cultures we live in Is it possible to trace any boundaries between reality and self representation Because the self represented is the product of a process of selection and choice in many ways to represent the self is often simultaneously to create the self and negate the self What then becomes of the self once it is represented Because the process of self representation cumulates in a tangible result and given that any representation of the self is necessarily a construct which aims to render visible or knowable in concrete form the unseen and unknown self representation is vulnerable to assessments of its naturalness or artificiality its honesty or deceit Many issues affect the author or artist's self representation both as process and form the medium through which the self will be represented the motivation for representing oneself and the role of the audience to name only a few relevant factors This book explores the multifaceted nature of self representation in relation to culture from the Middle Ages through the Renaissance up to contemporary Italian American and Australian culture with reference to concepts and questions connected to literature poetry philosophy theology history ethnicity studies gender studies and visual arts **About Face** Scott Barnes,2011-10 Original publication and copyright date 2010 **About Face** VK Powell,2014-08-01 Reclusive forensic

artist Macy Sheridan agrees to work one final case she hopes will solve the mystery that's haunted her for years. The only things blocking her from achieving her goal are a perfect facial reconstruction and Detective Leigh Monroe, a woman who reminds her of the past and challenges her future. Leigh Monroe has lost her lover, her livelihood, and her home, but she chooses to look on the bright side. What else could go wrong? Then she meets rude, solitary Macy Sheridan. But Leigh discovers that Macy's facade is a mask yet as real and untouchable as the forensic reconstructions she so meticulously creates.

About Face Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the power of words has become more evident than ever. They have the capacity to inspire, provoke, and ignite change.
