African Homicide And Suicide:

African Homicide and Suicide Paul Bohannan,1967 African Homicide and Suicide Paul Bohannan,1972-12-01 **The Death Penalty in Africa: Foundations and Future Prospects** A. Novak,2014-04-16 In recent years the death penalty has sharply declined across Africa but this trend belies actual public opinion and the retributivist sentiments held by political elites This study explains capital punishment in Africa in terms of culturally specific notions of life and death as well as the colonial era imposition of criminal and penal policy **Death, Belief and Politics in Central African History** Kalusa, Walima T.,Vaughan, Megan,2013-11-11 In this set of essays Walima T Kalusa and Megan Vaughan explore themes in the history of death in Zambia and Malawi from the late nineteenth century to the present day Drawing on extensive archival and oral historical research they examine the impact of Christianity on spiritual beliefs the racialised politics of death on the colonial Copperbelt the transformation of burial practices the histories of suicide and of maternal mortality and the political life of the corpse **Homicide** Bal K. Jerath,Rajinder Jerath,2020-08-26 Homicide represents the result of an exhaustive search of the world literature regarding homicide More than 7 000 entries have been compiled from references selected from major indexes in libraries from outstanding universities government agencies and military posts science libraries law libraries and the Library of Congress Each entry features a one or two word annotation that indicates whether it is an article or a book and all entries conform to the American Psychological Association stylebook guidelines Key word and author indexes provide quick access to works pertaining to particular subjects or by a certain author **Suicide in African Americans** David Lester,1998 Suicide in African Americans *Race and Suicide in South Africa* Fatima Meer,2022-10-05 Originally published in 1976 *Race and Suicide in South Africa* synthesises the two dimensions of suicide the personal and the social phenomenon Its approach is Durkheimian in the use of court records and phenomenological in the examination of actual cases About 1500 cases of suicide in Durban from 1940 70 are analysed in terms of race sex occupation marital status economic status family type and size residential area time and method used What emerges is a revealing picture of suicide in South African ethnic groups The findings confute the idea of Durkheim and others that behaviour in suicide conforms to certain universal principles and suggest the crucial role of particular social conditions in determining suicide trends while at the same time challenging the proposition that a high suicide rate is associated with high status Instead the author found that there were common emotional syndromes among suicides but there were contributed to by different social factors

Honour in African History John Iliffe,2005 This is the first published account of the role played by ideas of honour in African history from the fourteenth century to the present day It argues that appreciation of these ideas is essential to an understanding of past and present African behaviour Before European conquest many African men cultivated heroic honour others admired the civic virtues of the patriarchal householder and women honoured one another for industry endurance and devotion to their families These values both conflicted and blended with Islamic and Christian teachings Colonial conquest

fragmented heroic cultures but inherited ideas of honour found new expression in regimental loyalty respectability professionalism working class masculinity the changing gender relationships of the colonial order and the nationalist movements which overthrew that order Today the same inherited notions obstruct democracy inspire resistance to tyranny and motivate the defence of dignity in the face of AIDS *African Homicide and Suicide.
