African Philosophy Myth Or Reality Vol 2:

African Philosophy, Second Edition Paulin J. HOUNTONDJI, 1996-11-22 Hountondji contends that ideological manifestations of this view that stress the uniqueness of the African experience are protonationalist reactions against colonialism conducted paradoxically in the terms of colonialist discourse Hountondji argues that a genuine African philosophy must assimilate and transcend the theoretical heritage of Western philosophy and must reflect a rigorous process of independent scientific inquiry

Philosophy Guttorm Fløistad, 2012-12-06 This publication is a continuation of two earlier series of chronicles Philosophy of the Mid Century Firenze 1958-59 and Contemporary Philosophy Firenze 1968 edited by Raymond Klibansky Like the other series these chronicles provide a survey of significant trends in contemporary philosophical discussion from 1970 to 1985 The need for such surveys has I believe increased rather than decreased over the last years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the emergence of new schools of thought the convergence of interest thought not necessarily of opinion of different traditions upon certain problems the increasing attention being paid to the history of philosophy in discussions of contemporary problems and the growing significance for philosophical discourse of the social political and cultural situation in various regions of the world are the most important contributory factors Surveys of the present kind are a valuable source of knowledge of this complexity and may as such be an assistance in renewing the understanding of one's own philosophical problems The surveys it is to be hoped may also help to strengthen a world-wide Socratic element of modern philosophy the dialogue or Kommunikationsgemeinschaft So far five volumes have been prepared for the new series *Decolonising African University Knowledges, Volume 2* Amasa P. Ndofirepi, Felix Maringe, Simon Vurayai, Gloria Erima, 2022-10-14 This book explores the influence of neoliberal globalisation on African higher education considering the impact of the politics of neoliberal ideology on the nature and sources of knowledge in African universities Written by African scholars the book engages with debates around the commodification of knowledge socially just knowledge knowledge transformation collaboration and partnerships and indigenous knowledge systems It challenges the neoliberal approach to knowledge production and dissemination in African universities and contributes to debates around decolonising knowledge production in Africa The chapters draw on experiences from universities in different sub-Saharan countries to show how the manifestation of neo-colonialism through the pursuit of the hegemonic neoliberal philosophy is impacting on decolonising university knowledge in Africa Providing a unique critique of the impact of neoliberal higher education in Africa the book will be essential reading for researchers scholars and postgraduate students in the field of Sociology of Education decolonising education Inclusive Education and Education Policy

African Philosophy and the Hermeneutics of Culture Theophilus Okere, 2005 The Series Studies in African Philosophy is a forum for the publication and wider dissemination of researches and reflections of value on all aspects of African philosophy While recognising the special advantage of interdisciplinary approach in modern scholarship it retains a special predilection for works that have special African philosophic import Although Theophilus Okere's book African Philosophy has made remarkable impact on African philosophical scholarship many may not be aware of the way he tried to apply his preferred method to other areas of the philosophical investigation in Africa and to overcome the risk of relativism through the promotion of intercultural dialogue in philosophy The essays published in this volume bear testimony to the multivalent character of Okere's contribution to African philosophy Most of the essays are about Okere's hermeneutics of

culture Some of the authors examine the method in itself while others focus attention on its application to specific philosophical themes Book jacket

Sage Philosophy Henry Odera Oruka, 2022-06-08 Sage Philosophy is an anthology of three main parts Part one contains papers by Odera Oruka clearing the way and arguing about his research over the last decade on indigenous sages in Kenya Part Two introduces verbatim interviews with a given number of those sages while Part Three consists of published papers by scholars who are critics or commentators on the Oruka project The author has spent the last decade in Kenya carrying out his research It is the general stand of the book that the sages turn out to be thinkers or philosophers in no trivial sense despite their lack of modern formal education This study is a critique for all those scholars who hitherto have found no practice of critical philosophy in traditional Africa Atuolu Omalu Jonathan O. Chimakonam, 2014-12-15 The story of African philosophy is surrounded by controversy Decades after the great debate over its mere existence many vital questions have been left unanswered From examining the origins of African philosophy to addressing fundamental issues in ontology epistemology ethics and political thought this collection of essays brings fresh insight to questions both old and new First time readers and seasoned scholars alike will find this book to be an essential resource in African thought At l mal gives shape and direction to a hitherto formless discipline and heralds an exciting future for African philosophy

An Essay on African Philosophical Thought Kwame Gyekye, 1995 In this sustained and nuanced attempt to define a genuinely African philosophy Kwame Gyekye rejects the idea that an African philosophy consists simply of the work of Africans writing on philosophy It must Gyekye argues arise from African thought itself relate to the culture out of which it grows and provide the possibility of a continuation of a philosophy linked to culture Offering a philosophical clarification and theology and ethics of the Akan of Ghana Gyekye argues that critical analyses of specific traditional African modes of thought are necessary to develop a distinctively African philosophy as well as cultural values in the modern world
