After Rwanda The Coordination Of United Nations Humanitarian Assistance:

After Rwanda D. Pocock, J. Whitman, 2016-07-27 When the United Nations sanctions a humanitarian relief operation how can the numerous and diverse UN Non Governmental Organizations and military elements be coordinated What are the practical political and institutional considerations and impediments What can be learned from previous experience This is a volume of practitioner perspectives the views of distinguished individuals from all of the concerned professions including former Special Representatives of the Secretary General and Force Commanders as well as senior UN officials and representatives of the NGO community **The Politics of International Humanitarian Aid Operations** Eric A.

Belgrad, Nitzia Nachmias, 1997-06-30 The theories and case studies examined in this volume constitute a thorough study of foreign intervention in civil conflicts for the purpose of rendering humanitarian aid The classical paradigm of the ethics of intervention forbids the violation of territorial sovereignty Public international law and the UN charter also mandate nonintervention within the territorial boundaries of a state Nevertheless in recent years as a result of brutal civil conflicts and their violent and inhumane consequences as in Rwanda Bosnia and Cambodia international aid interventions have become an accepted practice Still international humanitarian aid involves unsettled controversial issues dilemmas concerning donors recipients and international organizations These issues as well as the concepts of sovereignty human rights coercive interventions and peacekeeping are critically evaluated in this volume which will be of interest to scholars and policymakers in international relations human rights and military affairs *Peacekeeping and Public Information* Ingrid Lehmann, 2018-12-07 Ms Lehmann has provided a timely and challenging prescription for just how the goals of placing communication functions at the heart of the strategic management of the UN might be achieved and a dramatic warning of the consequences of failing to do so **Peacekeeping and the UN Agencies** Jim Whitman, 2013-12-02 This book is a long overdue assessment of the role of the UN specialized Agencies in peacekeeping operations Special emphasis is given to that most vexed category complex emergencies involving entrapped or victimized civilian populations and a plethora of UN national military and NGO actors While based on the full range of recent history the contributions to this volume are forward looking and policy oriented bringing a hard edged practicality to complex and hitherto under examined issues

Re-Imagining Rwanda Johan Pottier, 2002-09-26 Pottier examines how a persuasive analysis of the situation in Rwanda exacerbated the original crisis Aspects of Peacekeeping Stuart Gordon, Francis Toase, 2014-05-22 The nature of UN operational involvement in the practical management of conflict has evolved dramatically since the end of the Cold War The post Cold War liberation of the Security Council the subsequent paralysis in its decision making competence and the apparent dilution of the concept of sovereignty as a prohibition on intervention have been principal factors in the evolving fortunes of UK peace support operations This evolving environment has had profound implications for the way in which the humanitarian community the United Nations and military forces engaged under a UN flag have reacted to peace support

operations This book explores contemporary peace support operations and examines many of the principal challenges that now confront those charged in different ways with bringing peace to war torn societies In particular this volume looks at the evolving nature of military UN and humanitarian non governmental organization s intervention in these complex conflicts It also explores how these organizations relate to one another and the way in which a division of labour is determined

International Conflict Resolution After the Cold War National Research Council, Commission on Behavioral and Social Sciences and Education, Committee on International Conflict Resolution, 2000-12-07 The end of the Cold War has changed the shape of organized violence in the world and the ways in which governments and others try to set its limits Even the concept of international conflict is broadening to include ethnic conflicts and other kinds of violence within national borders that may affect international peace and security What is not yet clear is whether or how these changes alter the way actors on the world scene should deal with conflict Do the old methods still work Are there new tools that could work better How do old and new methods relate to each other International Conflict Resolution After the Cold War critically examines evidence on the effectiveness of a dozen approaches to managing or resolving conflict in the world to develop insights for conflict resolution practitioners It considers recent applications of familiar conflict management strategies such as the use of threats of force economic sanctions and negotiation It presents the first systematic assessments of the usefulness of some less familiar approaches to conflict resolution including truth commissions engineered electoral systems autonomy arrangements and regional organizations It also opens up analysis of emerging issues such as the dilemmas facing humanitarian organizations in complex emergencies This book offers numerous practical insights and raises key questions for research on conflict resolution in a transforming world system Human Rights Functions of United Nations

Peacekeeping Operations Mari Katayanagi, 2021-10-25 The United Nations peacekeeping has evolved as a practical measure for preserving international peace and security Recent peacekeeping has two important features the use of force which arguably exceeds self defence on the one hand and multifunctional operations on the other The Security Council has started considering a wide range of factors including serious human rights violations as threats to international peace and security Recognising the UN s principle to seek peaceful settlement which underlies the legality of peacekeeping this research focuses on the human rights functions of multifunctional peacekeeping operations Such functions have immense potential for enhancing conflict resolution through peaceful means In order to illustrate these issues and the diverse practice of UN peacekeeping the author of this book has dealt with four detailed case studies on El Salvador Cambodia Rwanda and the former Yugoslavia The achievements problems and defects experienced by different operations are analysed using the insights of the author s own experience in a peacekeeping operation **Humanitarian Futures** Randolph C.

Kent, 2024-09-19 Humanitarian Futures Challenges and Opportunities explores the increasing types dimensions and dynamics of crises threatening the world in the twenty first century and argues that those with humanitarian roles and

responsibilities can only meet such challenges if their approaches to strategic and operational planning undergo fundamental paradigmatic shifts. Strategically and operationally such shifts must begin by planning from the future for the future. Author Randolph C. Kent, the UN's first Humanitarian Coordinator with experience in some of the most complex crises of modern times including Rwanda, Ethiopia, Kosovo, Sudan, and Somalia, provides a blueprint for dealing with ever greater complexity on planet Earth and beyond. That blueprint is not about upgrading existing tools or relying upon tried precedence. Rather, it points to a new paradigm for meeting crises. It begins by looking at the changing nature of humanness and governance and then turns to plausible future crises based on such changes before concluding with practical steps for dealing with ever more complex humanitarian threats now and in the future. This book will be an essential read for humanitarian policymakers and practitioners as well as for humanitarian and global studies researchers and students who are and want to be engaged in understanding and preparing for ever more complex and unpredictable humanitarian challenges. Chinas African Peacekeeping Decision-making in the Hu Jintao Era Fanie Herman, 2015-11-01. China's role in international peacekeeping has greatly expanded during the leadership of Hu Jintao, and China has since become a significant contributor to peacekeeping operations. PKOs in Africa. The importance of the book is expressed in the view that peacekeeping intervention is a tool that strengthens or fulfills policy goals in the United Nations Mission in Liberia (UNMIL), the UN Stabilization Mission in the Democratic Republic of the Congo (MONUSCO), and the UN Mission in Darfur (UNAMID). China has considerable interests at stake in Africa in terms of promoting economic cooperation or gaining access to natural resources. In order to maintain these efforts, it is imperative that a secure and stable environment is created not only to maintain diplomatic relations with its African partners but also to express the harmonious worldview and peaceful development concepts which rose to prominence under the presidency of Hu Jintao. The purpose of this book is therefore to examine the extent to which peacekeeping intervention contributes to China's relations with these countries. Two models are employed to shed light on this thesis. The rational actor model (RAM) developed by Graham Allison is used in the first instance to explain the goals for each country, the options considered to reach the goals, the consequences or outcomes of choice that will ensure whether a particular option is chosen, and then selecting the option that has the consequences that rank the highest in the leadership's payoff function. However, the leadership in policy formulation does not always act in a unitary fashion and often needs the input of governmental actors to produce results in decision making. Therefore, the bureaucratic politics model (BPM) of Allison is used in the second instance to indicate the bargaining, influencing, and compromising positions of the bureaucracy that has reinforced the rational decisions of the leadership. The main findings are that peacekeeping interventions serve as a mechanism to facilitate cooperation, is significant to China's goals in the mission countries, and influence and shape bargaining that occur between bureaucratic actors regarding peacekeeping.
