International Financial Integration in the Aftermath of the Global Financial Crisis Mr.Philip R. Lane,Mr.Gian M Milesi-Ferretti,2017-05-10 This paper documents the evolution of international financial integration since the global financial crisis using an updated dataset on external assets and liabilities covering over 210 economies for the period 1970 2015 It finds that the growth in cross border positions in relation to world GDP has come to a halt This reflects much weaker capital flows to and from advanced economies with diminished cross border banking activity and an increase in the weight of emerging economies in global GDP as these economies have lower external assets and liabilities than advanced economies Cross border FDI positions have continued to expand unlike positions in portfolio instruments and other investment This expansion reflects primarily positions vis vis financial centers suggesting that the complexity of the corporate structure of large multinational corporations is playing an important role The paper also explores the cross country drivers of foreign ownership of domestic debt securities highlighting in particular the role of the euro debt crisis in explaining its evolution

resolution for their politically contested state to shaping its turbulent relationship with India and to bridging the divide between India and Pakistan Although he forged ties with the Indian National Congress Abdullah s support for Kashmir s accession to India and his advocacy for a more autonomous position for the state within the Indian Union complicated his relationship with India and led to his fall from grace arrest and imprisonment In 1975 he reached a compromise with India that alienated generations of Kashmiris for whose self determination he had long fought The people of Kashmir India and Pakistan continue to grapple with and contest his legacy Zutshi s rigorously researched and elegantly crafted biography brings this complex figure to life and offers a window onto the political fissures of twentieth century South Asia more broadly
