The Mechanics of Wonder Gary Westfahl, 1998-01-01 This is a sustained argument about the idea of science fiction by a renowned critic Overturning many received opinions it is both controversial and stimulating Much of the controversy arises from Westfahl s resurrection of Hugo Gernsback for decades a largely derided figure as the true creator of science fiction Following an initial demolition of earlier critics Westfahl argues for Gernsback s importance His argument is fully documented showing a much greater familiarity with early American science fiction particularly magazine fiction than previous academic critics or historians After his initial chapters on Gernsback he examines the way in which the Gernsback tradition was adopted and modified by later magazine editors and early critics This involves a re evaluation of the importance of John W Campbell to the history of science fiction as well as a very interesting critique of Robert Heinlein s Beyond the Horizon one the seminal texts of American science fiction In conclusion Westfahl uses the theories of Gernsback and Campbell to develop a descriptive definition of science fiction and he explores the ramifications of that definition The Mechanics of Wonder will arouse debate and force the questioning of presuppositions No other book so closely examines the origins and development of the idea of science fiction and it will stand among a small number of crucial texts with which every science fiction scholar or prospective science fiction scholar will have to read Hope Lichner Milos, 2021-06-14 In our times hope is called into question The disintegration of economic systems of states and societies families friendships distrust in political structures forces us to ask if hope has disappeared from the experience of today s men and women In August 2019 up to 240 participants met at the international theological congress in Bratislava Slovakia The main lectures congress sections and workshops aimed to provide a space for thinking about the central theme of hope in relation to philosophy politics pedagogy social work charity interreligious dialogue and ecumenism **Fairy Tales of London** Hadas Elber-Aviram, 2021-01-28 Finalist for the 2022 Mythopoeic Scholarship Award for Myth and Fantasy Studies From the time of Charles Dickens the imaginative power of the city of London has frequently inspired writers to their most creative flights of
