Age Of Anthropological Theory:

Age and Anthropological Theory David I. Kertzer, Jennie Keith, 1984 **Handbook of Theories of Aging, Second Edition** Merrill Silverstein PhD, Vern L. Bengtson PhD, Norella Putney PhD, Daphna Gans PhD, 2008-10-27 The field of gerontology has often been criticized for being data rich but theory poor The editors of this book address this issue by stressing the importance of theory in gerontology While the previous edition focused on multidisciplinary approaches to aging theory this new edition provides cross disciplinary integrative explanations of aging theory The contributors of this text have reached beyond traditional disciplinary boundaries to partner with researchers in adjacent fields in studying aging and age related phenomena This edition of the Handbook consists of 39 chapters written by 67 internationally recognized experts in the field of aging It is organized in seven sections reflecting the major theoretical developments in gerontology over the past 10 years Special Features Comprehensive coverage of aging theory focusing on the biological psychological and social aspects of aging A section dedicated to discussing how aging theory informs public policy A concluding chapter summarizing the major themes of aging and offering predictions about the future of theory development Required reading for graduate students and post doctoral fellows this textbook represents the current status of theoretical development in the study of aging *Age Structuring in Comparative Perspective* David I. Kertzer, K. Warner Schaie, 2013-05-13 This volume studies age as a basis for social organization by uniting research from the social science disciplines while implementing both cross cultural and historical perspectives The contributors a distinguished interdisciplinary group of scholars advance our understanding of age structuring by relating the changing societal level processes and individual aging experiences and examining retirement practices age and power in society and cultural conceptions of age **Youth and Age in the Medieval North** Shannon Lewis-Simpson, 2008 This interdisciplinary volume explores social cultural and biological definitions of youth and age specific to the medieval north and changing mentalities towards youth and age as a result of political cultural and religious transformations in the north **State Formation and the Structure of Politics in Mamluk Syro-Egypt, 648-741 A.H./1250-1340 C.E.** Winslow Williams Clifford, 2013 Winslow Williams Clifford is one of the few historians so far who have addressed the history and culture of the so called Mamluk Sultanate 1250 1517 on the basis of theoretical models This volume is a posthumous publication of his doctoral thesis submitted in 1995 at the University of Chicago Through his skillful application of social theory Clifford succeeded in providing highly convincing evidence that the Mamluk rulers did not as was maintained for a long time constitute a static form of oriental despotism but was rather a highly differentiated society It was primarily based on compliance with a complex system of order that had established itself during the rule of the first sultans Language and Communication in Old Age Heidi Ehernberger Hamilton, 2013-07-04 This volume explores physiological and psychological changes in speech among the elderly drawing on 20 years of research on the physical and emotional aspects of language and communication Index *Encyclopedia of Medical Anthropology* Carol

R. Ember, Melvin Ember, 2003-12-31 Medical practitioners and the ordinary citizen are becoming more aware that we need to understand cultural variation in medical belief and practice The more we know how health and disease are managed in different cultures the more we can recognize what is culture bound in our own medical belief and practice The Encyclopedia of Medical Anthropology is unique because it is the first reference work to describe the cultural practices relevant to health in the world's cultures and to provide an overview of important topics in medical anthropology No other single reference work comes close to matching the depth and breadth of information on the varying cultural background of health and illness around the world More than 100 experts anthropologists and other social scientists have contributed their firsthand experience of medical cultures from around the world The Elderly as Modern Pioneers Philip Silverman, 1987 Overall one of the most competent and well presented treatments of the subject now available Jay Sokolovsky University of Maryland a valuable contribution to the field of gerontology The volume combines interdisciplinary and cross cultural perspectives written in a well organized framework without sacrificing depth and comprehensive summary of gerontological research Clinical Gerontologist A well written and documented volume for persons interested in the anthropological viewpoint on aging Choice the use of cross cultural comparisons provides a broadened perspective to understanding the issues of aging Current Literature on Aging It is comprehensive well written mercifully jargon free critical and controversial and undogmatic Aging and Society This volume focuses on the nature and problems of old age providing a comprehensive summary of current gerontological research from interdisciplinary and cross cultural perspectives *Gerontology* Janet May Wilmoth, 2013-04-26 Print CourseSmart **Alternative Iron Ages** Brais X. Currás, Inés Sastre, 2019-09-09 Alternative Iron Ages examines Iron Age social formations that sit outside traditional paradigms developing methods for archaeological characterisation of alternative models of society In so doing it contributes to the debates concerning the construction and resistance of inequality taking place in archaeology anthropology and sociology In recent years Iron Age research on Western Europe has moved towards new forms of understanding social structures Yet these alternative social organisations continue to be considered as basic human social formations which frequently imply marginality and primitivism In this context the grand narrative of the European Iron Age continues to be defined by cultural foci which hide the great regional variety in an artificially homogenous area This book challenges the traditional classical evolutionist narratives by exploring concepts such as non triangular societies heterarchy and segmentarity across regional case studies to test and propose alternative social models for Iron Age social formations Constructing new social theory both archaeologically based and supported by sociological and anthropological theory the book is perfect for those looking to examine and understand life in the European Iron Age We are so grateful to the research project titled Paisajes rurales antiguos del Noroeste peninsular formas de dominación romana y explotación de recursos Ancient rural landscapes in Northwestern Iberia Roman dominion and resource exploitation HAR2015 64632 P MINECO FEDER directed from the Instituto de Historia CSIC and also to the Funda
