Digital Technologies in the New Socio-Economic Reality Svetlana Igorevna Ashmarina, Valentina Vyacheslavovna Mantulenko, 2021-11-16. This book contains contributions from the IX International Scientific Conference "Digital Transformation of the Economy: Challenges, Trends, and New Opportunities," which was organized by Samara State University of Economics (SSEU), Samara, Russia, 2021, and devoted to the 90th anniversary of this higher education institution. The book is an attempt to analyze these changes and consider them from the point of view of various scientific areas: economics, management, education, law, sociology, and others. This book addresses theoretical and practical aspects by studying the digital technology application in terms of the new socioeconomic reality, development of big data in the digital economy, data collection and exchange, artificial intelligence, intelligent communications, digital platforms, and strategies for the sustainable development of socioeconomic systems and new requirements of professional and business education.
