African Boundaries:

African Boundaries Ian Brownlie, 1979 Boundaries, Borders and Peace-building in Southern Africa Richard A. Griggs, 2000 **Boundaries and Secession in Africa and International Law** Dirdeiry M. Ahmed, 2015-12-11 This book challenges the central assumption of the law of territory by establishing that *uti possidetis* is not a general principle of law and arguing that African customary rules were generated. It includes in depth coverage of African secession with issues of human rights law self determination and political science presented in a new light **Boundaries and History in Africa** Willibroad Dze-Ngwa, E. S. D. Fomin, Daniel Abwa, Albert-Pascal Temgoua, 2013 This book comprises 26 well researched essays in honour of Professor Verkijika G Fanso who retired in 2011 after over 36 years of distinguished service at universities in Cameroon. Contributors include colleagues former students and close collaborators in Cameroon and beyond. Contributions cover a wide range of issues related to the contested histories politics and practices of boundaries and frontiers in Africa. These are themes on which Fanso has researched published and taught extensively and earned international recognition as a leading scholar. The book explores inter alia indigenous and endogenous practices of boundary making in Africa as well as colonial and contemporary traditions practices and conflicts on and around frontiers. In particular focus are disputed colonial boundaries between Cameroon and its neighbours. Issues of intra and inter disciplinary frontiers politics and cultures are also addressed. The volume is crowned by a farewell valedictory lecture by Fanso. Like Fanso and his rich repertoire of publications this bumper harvest of essays is without doubt truly immortalising African Thresholds: Borders and Places of Passage in Africa, c.1450 to Present, 2025-06-19 The Open Access publication of this book has been made possible by the Swiss National Science Foundation. What is a border and why does it exist? Reappraising a key idea from Arnold van Gennep's *Les rites de passage* this book argues that a border is a threshold a *limen* made to be crossed. African Thresholds studies places of passage spanning from the riverine networks of Senegambia to border making in colonial Gold Coast and Côte d'Ivoire from the desert roads of central southern Africa to river heartlands in colonial Togo from flows of cowrie shells across the Volta River to insurgent borderities in the Lake Chad. In a time when state borders are increasingly shut this book aims to show us that a border is made by those who cross it as much as by those who stand by it. Contributors are Ettore Morelli Fernando Mouta Pierluigi Valsecchi Maria Jos Pont Chérif Giulia Casentini and Aimé Raoul Sumo Tayo Boundaries and African Integration A. I. Asiwaju, 2003 **Determining Boundaries in a Conflicted World** Suzanne Lalonde, 2002 In 1992 when Yugoslavia was on the point of disintegration the Badinter Commission recommended that the issue of its boundaries be resolved according to the principle of *uti possidetis* the internal boundaries dividing the former Yugoslav Republics should automatically become the international boundaries of the new states. Elated by what seemed a clear and workable solution to an impossible problem the international community proceeded to impose the binding principle of *uti possidetis* on all the parties involved. Relying on the Badinter interpretation of *uti possidetis* five experts in international

law have assured the Quebec government that in the event of separation from Canada Quebec could assume legal entitlement under international law of its existing boundaries In *Determining Boundaries in a Conflicted World* Suzanne Lalonde examines the origins of the uti possidetis principle its evolution and colonial roots as well as more recent applications to determine whether it merits the overriding importance now attributed to it *International Law and Boundary Disputes in Africa* Gbenga Oduntan,2015-06-26 Africa has experienced a number of territorial disputes over land and maritime boundaries due in part to its colonial and post colonial history This book explores the legal political and historical nature of disputes over territory in the African continent and critiques the content and application of contemporary International law to the resolution of African territorial and border disputes Drawing on central concepts of public international law such as sovereignty and jurisdiction and socio political concepts such as colonialism ethnicity nationality and self determination this book interrogates the intimate connection that peoples and nations have to territory and the severe disputes these may lead to Gbenga Oduntan identifies the major principles of law at play in relation to territorial and boundary disputes and argues that the predominant use of foreign based adjudicatory mechanisms in attempting to deal with African boundary disputes alienates those institutions and mechanisms from African people and can contribute to the recurrence of conflicts and disputes in and among African territories He suggests that the understanding and application of multidisciplinary dispute resolution mechanisms and strategies can allow for a more holistic and effective treatment of boundary disputes As an in depth study into the legal socio political and anthropological mechanisms involved in the understanding of territorial boundaries and a unique synthesis of an African jurisprudence of international boundaries law this book will be of great use and interest to students researchers and practitioners in African and Public International Law International Relations and decision makers in need of better understanding the settlement of disputes over territorial boundaries in both Africa and the wider world *Decolonizing African Politics* Michael Amoah,2025-06-07 This book serves as a unique contribution to the curriculum decolonizing agenda currently trending in universities It approaches Politics and International Relations from the postcolonial and decolonial perspectives with empirical rebuttals to existing imperial and neocolonial false narratives It examines key concepts and topics which regularly feature when teaching or discussing Africa at universities such as nationhood and nationalisms neo patrimonialism arbitrary borders and tribes fran afrique superpower relations relationships with China South South cooperation and collaborations foreign interventions global justice global governance and reform of the UN Security Council This book explores the etymologies of these concepts or topics and their terminological application to Africa while bringing fresh perspectives to the debate It appeals to scholars and students of African politics and international relations and functions as a graduate and advanced under graduate pedagogical tool

Governance and Border Security in Africa Celestine Oyom Bassey,Oshita O. Oshita,2010 The need therefore for effective governance through border security regimes arises from the intractable challenges of conflict management as a core

objective of multilateral institutions and non governmental agencies in global governance Thus governance along the Frontier has come to be marked by density and complexity This density and complexity in frontier relations under score the disciplinary concern for border governance Book Jacket
