Robin Cohen**

African Islands And Enclaves

**Toyin Falola, R. Joseph Parrott, Danielle
Porter Sanchez**

African Islands And Enclaves:

African Islands and Enclaves Robin Cohen,2024-07-05 Small territories and islands are significant flashpoints in the contemporary world order They are both exposed to the vicissitudes of international power rivalries and can find it difficult to sustain a stable internal political and economic order Originally published in 1983 this book provides a balance between enclaves and islands between Indian and Atlantic Ocean territories and between territories that were self governing and those that were still integrated into metropolitan political units Each of the authors shares a close familiarity with the territories they surveyed one that goes into a direct and sometimes brutal appreciation of the difficulties and realities of constructing a modern life in such limiting contexts

African Islands and Enclaves Robin Cohen,2024-07-05 Small territories and islands are significant flashpoints in the contemporary world order They are both exposed to the vicissitudes of international power rivalries and can find it difficult to sustain a stable internal political and economic order Originally published in 1983 this book provides a balance between enclaves and islands between Indian and Atlantic Ocean territories and between territories that were self governing and those that were still integrated into metropolitan political units Each of the authors shares a close familiarity with the territories they surveyed one that goes into a direct and sometimes brutal appreciation of the difficulties and realities of constructing a modern life in such limiting contexts

A Theory of Enclaves Evgeny Vinokurov,2007-01-01 Providing a fully fledged theory of enclaves and exclaves this comprehensive book covers a wide span of almost 300 territories throughout the world Rather than viewing each enclave as a unique case or even as an anomaly *A Theory of Enclaves* provides a systematic investigation of enclave related political and economic issues

Africa South of the Sahara 2004 Europa Publications,2003 A definitive one volume guide to all sub Saharan African countries providing invaluable economic and directory data

African Islands Toyin Falola,R. Joseph Parrott,Danielle Porter Sanchez,2019 Explores the culturally complex and cosmopolitan histories of islands off the African coast

Africa Toyin Falola,Daniel Jean-Jacques,2015-12-14 These volumes offer a one stop resource for researching the lives customs and cultures of Africa s nations and peoples Unparalleled in its coverage of contemporary customs in all of Africa this multivolume set is perfect for both high school and public library shelves The three volume encyclopedia will provide readers with an overview of contemporary customs and life in North Africa and sub Saharan Africa through discussions of key concepts and topics that touch everyday life among the nations peoples While this encyclopedia places emphasis on the customs and cultural practices of each state history politics and economics are also addressed Because entries average 14 000 to 15 000 words each contributors are able to expound more extensively on each country than in similar encyclopedic works with shorter entries As a result readers will gain a more complete understanding of what life is like in Africa s 54 nations and territories and will be better able to draw cross cultural comparisons based on their reading

Geography Of Islands Stephen A. Royle,2002-09-11 First Published in 2004 Islands have always fascinated people They often seem remote

and mysterious set between the continents on which most people live Indeed many people choose islands for their perfect holiday idyll In practice however the everyday social and economic reality is often very different A Geography of Islands firstly examines the differing ways islands are formed Despite the uniqueness of such islands in terms of shape size flora and fauna and also their economic and developmental profiles they all share certain characteristics and constraints imposed by their insularity These present islands everywhere with a range of common problems A Geography of Islands considers how their small scale isolation peripherality and often a lack of resources has affected islands in the present day and their past It considers and discusses population issues communications and services island politics and new ways of making a living especially tourism found within contemporary island geography A Geography of Islands gives a comprehensive survey of islandness and its defining features Stephen A Royle has visited and studied 320 islands in 50 countries in all the world's oceans It is full of up to date global case studies from Okinawa to Inishbofin and Hawaii to Crete In the final chapter all the themes are brought together in a case study of the Atlantic island of St Helena It is well illustrated with the author's own photographs and maps This book will appeal to those studying islands as well as those with an interest in the topic particularly those engaged in dealing with small island economies *The Development Process in Small Island States* Douglas G. Lockhart, Patrick J. Schembri, David W. Smith, 2002-09-26 First Published in 2004 Islands are coming under increasing environmental and social pressure particularly as a result of the impact of tourism In many ways the small scale of these islands almost enclosed systems provides researchers with ideal cases in which to observe this process and test theory The Development Process in Small Island States focuses on the political security tourism gender issues ecosystems landscapes and economies of island communities It encompasses islands at very different stages in the development process identifying valuable common lessons and providing insights into the developmental issues particular to islands With case studies drawn from the Caribbean the Mediterranean and the Pacific the book examines the position of islands as ecologically and economically vulnerable places **Contemporary Africa** Matthew Graham, 2018-10-12 This textbook offers a critical introduction to the study of Africa drawing on scholarship from a range of academic disciplines A comprehensive discussion of the continent's geography and history provides a backdrop to broad ranging coverage of its social economic political and cultural composition as well as its future prospects Moreover moving beyond the all too common tendency to view Africa as a single homogeneous entity Graham provides a nuanced overview that challenges preconceptions and stereotypes Written in a sophisticated yet accessible style and supported by a range of pedagogical features this book introduces undergraduate students from a range of different disciplinary backgrounds to the contemporary study of Africa A History of Postcolonial Lusophone Africa Patrick Chabal, David Birmingham, 2002-06-13 useful timely and important a good and informative book on the Lusophone countries Portuguese colonialism and postcolonial influences Phyllis Martin Indiana University This book produced by the obvious and distinguished corps of country specialists fills a real gap in both

state level and regional broadly defined studies of contemporary Africa Norrie MacQueen University of Dundee Although the five Portuguese speaking countries in Africa that gained independence in 1974 75 Angola Mozambique Guinea Bissau Cape Verde and S o Tom e Pr ncipe differ from each other in many ways they share a history of Portuguese rule going back to the 15th century which has left a mark to this day Patrick Chabal and his co authors assess the nature of the Portuguese legacy using a twofold approach In Part I three analytical thematic chapters by Chabal examine what the five countries have in common and how they differ from the rest of Africa In Part II individual chapters by leading specialists each devoted to a specific country survey the histories of those countries since independence The book places the postcolonial experience of the Lusophone countries within the context of their precolonial and colonial past and compares and contrasts their experience with that of non Lusophone African states The result is a comprehensive readable and up to date text and reference work on the evolution of postcolonial Portuguese speaking Africa
