Montreal After Dark Matthieu Caron, 2025-05-13 Sex and jazz liquor and gambling Montreal in the early twentieth century was a city that offered an exceptional nighttime scene in North America By mid century that scene came under scrutiny and Montreal's influential mayor Jean Drapeau would be elected for the first time on a reformist platform that promised to end corruption Over more than three decades Drapeau would endeavour to transform Montreal into a world class global city by regulating its nightlife Montreal After Dark chronicles the spaces where nighttime regulations were enforced and contested City authorities understood the night as enabling disorder and they reorganized policing and crafted bylaws to gain control over it Police and politicians mutually reinforced each other's drive to morally cleanse the urban landscape especially for international events like Expo 67 and the 1976 Olympics But in an era of social unrest Drapeau's administration also found itself responding to the protective services discontent The political culture of the city was quickly transformed following terrifying nights without their services Matthieu Caron shows how in an effort to incorporate the night into the expansionary tendencies of consumer capitalism municipal authorities took sides in a debate over who had the right to public space at night what constituted acceptable behaviour or expression whose sexual activity sustained the social order and whose threatened to destroy it In terms that are strikingly familiar today Montreal After Dark elucidates how the desires of politicians would come to reorganize how consumption and leisure labour and dissent noise sex and art were lived in Montreal after the sun went down **Official Gazette** Philippines, 1912 *House Documents* USA House of Representatives, 1872 After Escobar Chris Feistl, Dave Mitchell, Jessica Balboni, 2025-06-24 Renowned DEA agents Chris Feistl and Dave Mitchell tell the incredible true story of how they helped dismantle the world's single most powerful crime syndicate as featured in Season 3 of the hit Netflix series Narcos By the early 1990s Colombia's Cali cartel had become what the former head of the DEA Thomas Constantine referred to as The biggest and most powerful crime syndicate in history Responsible for nearly 85% of the cocaine that reached U S soil and 90% worldwide they were untouchable earning billions of dollars all while maintaining their reputation as The Godfathers of Cali and brazenly corrupting thousands of Colombian authorities and government officials even buying the outcome of the 1994 presidential election In 1994 the DEA sent young operatives Chris Feistl and Dave Mitchell to Colombia with one formidable task help Colombian authorities take down the ruthless leaders of the brutal Cali cartel Not any easy job for two men who looked more like tall lanky surfers than DEA agents standing well over six feet tall and only six years removed from the DEA Academy they were the epitome of conspicuous in a city where most residents rarely if ever saw an American in person Many of their colleagues feared for their

safety openly questioning their ability to blend in Their almost three year journey would lead them from the bureaucratic halls of the U S Embassy to the violent streets of Cali and deep into its rural sugar cane fields on high alert day and night as they dodged deadly cartel assassins and oftentimes worked unilaterally to battle the unprecedented corruption within Colombia s security forces Over time their relentless efforts began to slowly degrade the godfathers defenses and weaken their infrastructure

Film Piracy, Organized Crime, and Terrorism Gregory F. Treverton, 2009 A study of the involvement of organized crime and terrorist groups in product counterfeiting Case studies of film piracy illustrate the problem of criminal and perhaps terrorist groups using this new high payoff low risk way to fund their activities Cooperation among law enforcement and governments worldwide is needed to combat intellectual property theft which threatens the global information economy public safety and national security
