**The United Nations Convention Against Torture and Its Optional Protocol** Manfred Nowak, Moritz Birk, Giuliana Monina, 2019 This second edition of The United Nations Convention Against Torture A Commentary provides an updated analysis of all substantive organizational and procedural provisions of the Convention and its Optional Protocol ensuring that the volume continues to serve as a comprehensive guide for researchers and practitioners alike *Counter-Terrorism* Ana María Salinas de Frías, Katja Samuel, Nigel White, 2012-01-19 The responses of governments and international institutions to terrorism raise some of the most controversial issues of the twenty first century In particular attempts to balance the desire to achieve security with the safeguarding of human rights and other aspects of the rule of law have proved to be highly contentious This book is unique not only in terms of its multinational multidisciplinary nature but also due to its truly comprehensive approach It reviews and examines the interrelationship between the four principal elements of the international rule of law framework international human rights humanitarian criminal and refugee asylum law within in which counter terrorism responses should occur It focuses primarily on some of the most pressing emerging and or under researched issues and tensions These include policy choices associated with meeting security imperatives the tensions between the criminal justice or preventive approach to counter terrorism and the military approach the identification of lacunae within existing legal frameworks and tensions between executive judicial and legislative responses These matters are examined at the national regional and international levels The book addresses a wide spectrum of issues including analysis of key legal principles emergency and executive measures radicalization governmental and institutional impunity classification administration and treatment of battlefield detainees the use of lethal force forms of and treatment in detention non refoulement diplomatic assurances interrogation versus torture extraordinary rendition discrimination justice and reparations for victims of terrorist attacks and security responses mis use of military courts commissions and immigration tribunals judicial and institutional developed and emerging rule of law norms on terrorism non judicial oversight by means of democratic accountability and the identification and analysis of best practices including inter regional judicial and other forms of cooperation and developed practices for the handling and use of sensitive information Drawing together an impressive spectrum of legal and non legal national and institutional practitioner policy and academic expertise this book is an essential and comprehensive reference work on counter terrorism policy practice and law making Scandinavian Penal History, Culture and Prison Practice Peter Scharff Smith, Thomas Ugelvik, 2017-07-28 This book draws on historical and cross disciplinary studies to critically examine penal practices in Scandinavia The Nordic countries are often hailed by international observers as model societies with egalitarian welfare policies low rates of poverty humane social policies and human rights oriented internal agendas This book however paints a much more nuanced picture of the welfare policies ideologies and social control in strong centralistic states Based on extensive new empirical data leading Nordic and

international scholars discuss the relationship between prison conditions in Scandinavia and Scandinavian social policy more generally and argue that it is not always liberating and constructive to be embraced by a powerful welfare state This book is essential reading for researchers of state punishment in Scandinavia and it is highly relevant for anyone interested in the Nordic Model of social policy Caribbean Anti-Trafficking Law and Practice Jason Haynes, 2019-07-11 This monograph investigates the International European and Commonwealth Caribbean approaches to human trafficking from an Analytical Eclectic perspective It presents a compelling empirically based argument that although there is currently a panoply of measures aimed at preventing human trafficking prosecuting offenders and protecting trafficked victims in both Europe and the Commonwealth Caribbean these measures have in practice been fraught with a number of challenges whether of a normative institutional or individual nature The continued existence of these challenges strongly suggests that there exists a disconnect between anti trafficking law and practice which is not peculiar to small island developing States since they also extend to developed States including the United Kingdom Although these challenges are not insurmountable this monograph advances the argument that sustained social economic political and legal commitments are both necessary and desirable and that without such commitments only pyrrhic victories would be won in the fight to eradicate the scourge of the twenty first century Given the importance of the issue of human trafficking and its inescapable impact on victims families communities nations regions and the international community as a whole this monograph will serve as an important resource for policy makers scholars students and practitioners actively working in this increasingly dynamic area of law *Convention Against Torture and Other Cruel, Inhuman Or Degrading Treatment Or Punishment [various Documents]*. United Nations. Committee against Torture, 1990 **Universal Rights, Systemic Violations, and Cultural Relativism in Morocco** O. Glacier, 2013-11-06 Are universal rights bound to colonialism Are they culturally imperialistic By juxtaposing Morocco s practice of torture with its discourse of cultural relativism this study links popular resistance to universal rights to a deliberate politics that delegitimizes those very same rights requiring a new more inclusive system of universalism **The Rights of Victims in Criminal Justice Proceedings for Serious Human Rights Violations** Juan Carlos Ochoa S., 2013-02-05 The Rights of Victims in Criminal Justice Proceedings for Serious Human Rights Violations addresses a question of critical importance to policy makers international lawyers academics and affected societies throughout the world Should victims of serious human rights violations be granted under international law the rights of access to and participation in criminal proceedings before international hybrid and domestic tribunals Juan Carlos Ochoa applies a thorough analysis of international and comparative domestic law and practice to this question taking into account a host of international human rights instruments and case law the theory law and practice of international and hybrid criminal tribunals the law and practice in several domestic jurisdictions and many theoretical and empirical studies After first determining the current state of and emerging trends in international law in this area he argues that the lack of recognition of these rights under

customary international law is inadequate because access to and participation in criminal proceedings for victims of these infringements are based on several internationally recognised human rights and principles contribute to the expressivist objectives of these procedures and are consistent with the principles that inform the enforcement of criminal law in democratic States On this basis Ochoa convincingly suggests concrete reforms *International Law* Malcolm N. Shaw, 2017-09-14 International Law is the definitive and authoritative text on the subject offering Shaw's unbeatable combination of clarity of expression and academic rigour and ensuring both understanding and critical analysis in an engaging and authoritative style Encompassing the leading principles practice and cases and retaining and developing the detailed references which encourage and assist the reader in further study this new edition motivates and challenges students and professionals while remaining accessible and engaging Fully updated to reflect recent case law and treaty developments this edition contains an expanded treatment of the relationship between international and domestic law the principles of international humanitarian law and international criminal law alongside additional material on international economic law **Transnational Lawmaking Coalitions for Human Rights** Nina Reiners, 2021-12-02 Explores how expert bodies and non state empowered professionals come together to shape human rights law *Effective Strategies for Protecting Human Rights* David Barnhizer, 2017-11-01 This title was first published in 2001 This book brings together the experiences of a diverse range of leading human rights advocates and activists to demonstrate strategies for protecting human rights The volume identifies strategic problems and approaches and offers a range of strategies that hold promise for sanctioning human rights offenders and for inhibiting the behaviour of those who might otherwise engage in such activities The contributors include inter alia Noam Chomsky Justice Richard Goldstone of the Constitutional Court of South Africa who served as Chief Prosecutor of the UN War Crimes Tribunals for the former Yugoslavia and Rwanda and David Rawson United States Ambassador to Rwanda during the tragic genocide Those who work in the disparate field of human rights increasingly understand the need to see the system strategically rather than piecemeal This volume captures their insights and looks at both private and public actors including the uses and limitations of international fora to prosecute violations The focus is expanded to include private actions because political issues too often interfere with enforcement of human rights laws allowing violators to hide behind the unwillingness of national governments to take action
