Age Discrimination And The Mandatory Retirement Controversy:

Age Discrimination and the Mandatory Retirement Controversy Martin Levine, 1988 Age Discrimination and the Mandatory Retirement Controversy Martin Levine, **Age Discrimination** John Macnicol, 2006-01-12 Age discrimination is a highly topical issue in all industrialised societies against a background of concerns about shortening working lives and ageing populations in the future Based upon detailed research and adopting an interdisciplinary approach this unique study traces the history of the age discrimination debate in Britain and the USA since the 1930s It critically analyses the concepts of ageism in social relations and age discrimination in employment Case studies on generational equity and health care rationing by age are followed by an analysis of the British government's initiatives against age discrimination in employment The book then traces the history of the debate on health status and old age addressing the question of whether working capacity has improved sufficiently to justify calls to delay retirement and extend working lives It concludes with a detailed examination of the origins and subsequent working of the USA's 1967 Age Discrimination in Employment Act The future for older workers Wendy Loretto, Sarah Vickerstaff, Philip J. White, 2009-04-21 Across the world governments in mature industrial and post industrial economies are concerned about the ageing population Dealing directly and exclusively with the issue of older workers this book brings together up to the minute research findings by many of the leading researchers and writers in the field The duration and quality of working lives and the timing and circumstances of retirement are of growing concern especially in those cases where employers demands and imperatives clash with employees wishes The contributions in this volume focus upon various measures taken by the state and employers to foster the employment of older workers in Britain mainland Europe the US and Japan The authors address key issues that will influence public policy exploring what workers over 50 want the impact of the ageing workforce on employer policies and the implications for governments in promoting and supporting extended working lives The book is aimed at academics students policy makers and other professionals such as training managers HR professionals and trade unionists interested in contemporary issues within social policy the sociology of ageing and human resource and diversity management It will also be of interest to older workers themselves *Aging and Old Age* Richard A. Posner, 1995-12-18 Exploding the myth that the United States is on the brink of gerontological disaster this provocative and revealing book paints a surprisingly rich and unsentimental portrait of the millions of elderly people in the US and offers fresh insight into a wide range of social and political issues relating to the elderly including health care crime social security and discrimination **The Demand for Older Workers** John W. Straka, 1992 *Korea's Retirement Predicament* Thomas R. Klassen, Yunjeong Yang, 2013-07-31 The distinguishing feature for many workers in South Korea is contractual and often involuntary retirement at a young age mid 50s for most workers followed by precarious and low paying self employment or contract work In the past this practice which is also found in other East Asian nations provided firms with a youthful and highly productive workforce However with a rapidly aging population

and shifts in the labour market the existing arrangement is becoming less and less functional This book examines how this retirement arrangement arose and the policy reforms that have been both undertaken and proposed to allow workers to remain employed longer The analysis focuses on the institutional constraints to reforms as well as the impact forced retirement has on individuals Using a multi disciplinary and comparative approach the authors study contractual mandatory retirement trends and policies in South Korea and in doing so illuminate the political social legal economic and labour market implications of this widespread practice As nations across Asia face aging populations this book will be welcomed by students and scholars interested in Korean studies social policy social welfare and gerontology It will also be of great value to policy makers

Labor Literature, Index of Periodical Articles ,1978 **Freedom and Tenure in the Academy** William W. Van Alstyne,1993 Van Alstyne presents an unhurried historical review of the extent to which academic freedom has been accepted into domestic constitutional law Two essays deal with the issue of tenure and academic freedom Ralph S Brown and Jordan E Kurland agree that tenure reinforces academic freedom but wonder if there is not a large price to be paid for such a system In a highly instructive review Matthew Finkin looks at academic tenure and freedom in the light of labor law Focusing on freedom of artistic expression Robert O Neil raises difficult questions about what kinds of art displays taxpayers can be expected to tolerate in the colleges and universities they support Rodney A Smolla looks at the ways in which hate speech and offensive expression on campuses engage wide First Amendment jurisprudence Judith Jarvis Thomson examines the vexed issue of selecting and valuing individual faculty members or disciplines with regard to ideology Michael W

Neoliberalising Old Age John Macnicol,2015-10-08 This book examines the effect of neoliberalism on the recent ageing and social policy agenda in the UK and the USA
