Batsford Chess Course Bronze:

Bronze Age Britain Michael Parker Pearson, 2021-01-29 During the Neolithic and Bronze Age a period covering some 4 000 years from the beginnings of farming by stone using communities to the end of the era in which bronze was an important material for weapons and tools the face of Britain changed profoundly from a forest wilderness to a large patchwork of open ground and managed woodland The axe was replaced as a key symbol first by the dagger and finally by the sword The houses of the living came to supplant the tombs of the dead as the most permanent features in the landscape In this fascinating book eminent archeologist Michael Parker Pearson looks at the ways in which we can interpret the challenging and tantalising evidence from this prehistoric era He also examines the various arguments and current theories of archeologist about these times Drawing on recent discoveries and research and illustrated with numerous maps plans reconstructions and photographs this book shows what life was like and how it changed during the Neolithic and Bronze Age **Chess** ,1988
