Battleship Cruiser Destroyer:

Battleship, Cruiser, Destroyer Gregory Haines, 1994 **The Modern Cruiser** Robert C. Stern, 2020-03-30 An entertaining and informative review of the evolution of one of the most important classes of warship from the technology of WWII into the missile age Firetrench Cruisers probably vary more in their characteristics than any other warship type and have certainly been subject to the most convoluted development There was always a basic tension between quantity and quality between numbers and unit size but at a more detailed level every one of the naval powers made different demands of their cruiser designers This makes the story of cruiser evolution in the world's major navies fascinating but complex This book sets out to provide a coherent history of the fortunes of this ship type in the twentieth century beginning with a brief summary of development before the First World War and an account of a few notable cruiser actions during that conflict that helped define what cruisers would look like in the post war world The core of the book is devoted to the impact of the naval disarmament treaty process which concentrated to a great extent on attempting to define limits to the numbers and size of cruisers that could be built in the process creating the treaty cruiser as a type that had never existed before and that existed solely because of the treaty process How the cruisers of the treaty era performed in the Second World War forms the final focus of this interesting well written and well grounded book which concludes with a look at the fate of the cruiser type since 1945 Warship International The result is probably the best single volume account of the subject to date Battleship, Battlegroup-cruiser Destroyer Group Homeporting, San Francisco Bay, 1987 **Battleships of the Scharnhorst Class** Gerard Koop, Klaus-Peter Schmolke, 2014-07-22 The warships of the World War II era German Navy are among the most popular subject in naval history with an almost uncountable number of books devoted to them However for a concise but authoritative summary of the design history and careers of the major surface ships it is difficult to beat a series of six volumes written by Gerhard Koop and illustrated by Klaus Peter Schmolke Each contains an account of the development of a particular class a detailed description of the ships with full technical details and an outline of their service heavily illustrated with plans battle maps and a substantial collection of photographs These have been out of print for ten years or more and are now much sought after by enthusiasts and collectors so this new modestly priced reprint of the series will be widely welcomed Scharnhorst and Gneisenau the subject of this volume were the product of a long involved and politically determined design process that saw them develop from an improved Pocket Battleship to what many described as a battlecruiser although they were really fast battleships They were the most active and successful of the Kriegsmarine's major warships taking part in numerous famous operations including the infamous Channel Dash **The Chicago Daily News Almanac and Year Book for ...** George Edward Plumbe, James Langland, Claude Othello Pike, 1905 *Congressional Record* United States. Congress, 1929 *Merchant Vessels of the United States...* United States. Coast Guard, 1928

narrative of the Pacific War Francis Pike's Hirohito's War offers an original interpretation balancing the existing Western centric view with attention to the Japanese perspective on the conflict As well as giving a blow by blow account of campaigns and battles Francis Pike offers many challenges to the standard interpretations with regards to the causes of the war Emperor Hirohito's war guilt the inevitability of US Victory the abilities of General MacArthur and Admiral Yamamoto the role of China Great Britain and Australia military and naval technology and the need for the fire bombing of Japan and the eventual use of the atom bomb on Hiroshima and Nagasaki Hirohito's War is accompanied by additional online resources including more details on logistics economics POWs submarines and kamikaze as well as a 1930-1945 timeline and over 200 maps

Annual List of Merchant Vessels of the United States, 1926 From 1894-95-1935-36 pt 6 of each volume is issued separately with titles 1894-95 1902-03 Code list of merchant vessels of the United States 1903-04 1935-36 Seagoing vessels of the United States

Stalin's Ocean-going Fleet: Soviet Jurgen Rohwer, 2017-07-05 In this work two senior naval historians analyze the discussions held in leading Soviet political military and naval circles concerning naval strategy and the decisions taken for warship building programmes They describe the reconstitution of the fleet under difficult conditions from the end of the Civil War up to the mid 1920s leading to a change from classical naval strategy to a Jeune école model in the first two Five Year Plans including efforts to obtain foreign assistance in the design of warships and submarines Their aim is to explain the reasons for the sudden change in 1935 to begin building a big ocean going fleet After a period of co operation with Germany from 1939-41 the plans came to a halt when Hitler attacked the Soviet Union in 1941 Finally this work covers the reopening of the naval planning processes in 1944 and 1945 and the discussions of the naval leadership with Stalin the party and government officials about the direction of the new building programmes as the Cold War began
