Lighthouses of Hampton Roads: A History Benjamin H. Trask, 2023 For nearly two centuries the beacons of light stations guided vessels through the deceptively hazardous waters in and around Hampton Roads Eleven light stations have dotted the southeastern coast of Virginia since the days of the early republic Starting with Alexander Hamilton s establishment of the federal lighthouse service their story meanders through the American Civil War Reconstruction the Second World War and beyond tracing the development of maritime commerce in the region The keepers themselves were mostly white men from Virginia or North Carolina however caretakers also included immigrants women and formerly enslaved men For almost two hundred years these stalwarts maintained the beacons that guided vessels through these waters They also rescued those in peril Far from being isolated their collective lives were intertwined with the events and innovations that shaped the nation Local historian Benjamin Trask tells their stories

A Leader Born Alton Keith Gilbert, 2006-08-19 This biography of one of World War II s great military leaders is a rich tribute to a staunch American naval hero WWII Quarterly John S Slew McCain was an old school sailor Wiry profane a cusser and a gambler he reminded more than one observer of Popeye He was also a pioneer in the hard hitting naval tactics that brought Imperial Japan to its knees McCain graduated from Annapolis in 1906 and served aboard an armored cruiser in World War I Perceiving the future of naval warfare he earned his aviation wings in 1936 and by 1939 McCain was commander of the aircraft carrier USS Ranger He was thus well placed to play a leading role in America s cut and thrust war with the Japanese across the broad expanses of the Pacific In 1942 he was made commander of all land based aircraft during the campaign for Guadalcanal Though he took his share of blame for the disaster at Savo Island he counterattacked with every means at his disposal to the point of commandeering the planes of the crippled carriers Enterprise and Saratoga to reinforce US strength on Henderson Field By the time the US returned to the Philippines McCain was leading a fast carrier task force under William Bull Halsey

When asked what he thought about his carrier commander Halsey replied Not much more than my right arm McCain's carrier group would destroy thousands of enemy planes and hundreds of ships with aggressive swarming tactics Four days after Japan officially surrendered McCain died in his bed His name has lived on however through his son who became commander of US naval forces in the Pacific and his grandson John S McCain III carrier pilot Vietnam POW and United States Senator Drawing upon a wealth of primary sources including information provided by the McCain family as well as an expert grasp of the titanic battles waged by the US armed forces in the Pacific Alton Keith Gilbert has provided the fullest account of the Admiral John McCain's life yet written

Deciphering the Rising Sun Roger Dingman, 2009-07-01 This book is about Americans not of Japanese ancestry who served as Japanese language officers in World War II Covering the period 1940-1945 it describes their selection training and service in the Navy and Marine Corps during the war and their contributions to maintenance of good relations between America and Japan thereafter It argues that their service as code breakers and combat interpreters hastened victory and that their cross cultural experience and linguistic knowledge facilitated the successful dismantling of the Japanese Empire and the peaceful occupation of Japan The book shows how the war changed relations between the Navy and academia transformed the lives of these 1200 men and women and set onetime enemies on course to enduring friendship Its purpose is twofold to reveal an exciting and hitherto unknown aspect of the Pacific War and to demonstrate the enduring importance of linguistic and cross cultural knowledge within America's armed forces in war and peace alike The book is meant for the general reader interested in World War II as well as academic specialists and other persons particularly interested in that conflict It will also appeal to readers with an interest in America's intelligence establishment and to those interested in Japan and its relations with the United States This history tells an exciting and previously unknown story of men and women whose brains and devotion to duty enabled them to learn an extraordinarily difficult language and use it in combat and ashore to hasten Japan's defeat and transformation from enemy to friend of America

The Foundation of the CIA Richard E. Schroeder, 2017-11-21 This highly accessible book provides new material and a fresh perspective on American National Intelligence practice focusing on the first fifty years of the twentieth century when the United States took on the responsibilities of a global superpower during the first years of the Cold War Late to the art of intelligence the United States during World War II created a new model of combining intelligence collection and analytic functions into a single organization the OSS At the end of the war President Harry Truman and a small group of advisors developed a new centralized agency directly subordinate to and responsible to the President despite entrenched institutional resistance Instrumental to the creation of the CIA was a group known colloquially as the Missouri Gang which included not only President Truman but equally determined fellow Missourians Clark Clifford Sidney Souers and Roscoe Hillenkoetter
