fact he was killed during one of the country's most well known and ignominious defeats the Battle of Little Bighorn. At the same time this one relatively insignificant battle during America's Indian Wars has become one of the country's most mythologized events and continues to fascinate Americans nearly 140 years later. On the morning of June 25 Custer's scouts discovered a Native American village about 15 miles away in the valley of the Little Bighorn River. Choosing to disregard his superiors' orders to wait for a concerted effort, the grandstanding Custer intended to deliver his own decisive victory by dividing his command into three units, an extremely bold tactic when done in the face of a much larger force. Due to their belief in the inferiority of the Plains Indians and mindful of previous Indian tactics that sought to avoid pitched battle, Custer and his men were most concerned with forcing the action and failed to understand the true nature of the situation they had entered. The Native American gathering centered around the famous Sioux chief Sitting Bull, numbered roughly 8,000 individuals, and about 2,000 of them were warriors. Custer's forces amounted to a mere 31 officers, 566 troopers, and 50 scouts and civilians, and they had been split into three columns in order to stop a possible retreat. Before the battle, it is believed Custer thought he was facing a group of about 800, which was Sitting Bull's strength in the weeks before the battle. However, the Army's Native American scouts and civilian scouts had not adequately informed the Army of the reinforcements that arrived, and at Little Bighorn, Custer's three-pronged attack was completely overwhelmed. How Custer met his fate and whether there even was a Last Stand remain subjects of debate, but what is known is that the Battle of the Little Bighorn was one of the U.S. military's biggest debacles. All told, the 7th Cavalry suffered over 50% casualties, with over 250 men killed and over 50 wounded. The dead included Custer's brothers Boston and Thomas, his brother-in-law James Calhoun, and his nephew Henry Reed Custer, and his men were buried where they fell. A year later, Custer's remains, or more accurately the remains found in the spot labeled with his name, were relocated to West Point for final interment. The Battle of the Little Bighorn: The History and Controversy of Custer's Last Stand comprehensively covers the entire campaign leading up to the decisive battle, analyzes the decisions made by the battle's most important leaders, and explains the controversial aftermath and legacy of the fighting. Along with a bibliography and pictures of important people and places, you will learn about the Battle of the Little Bighorn like you never have before, in no time at all.

The Battle of the Greasy Grass/Little Bighorn Debra Buchholtz, 2013-10-28. In June of 1876, the U.S. government's plan to pressure the Lakota and Cheyenne people onto reservations came to a dramatic and violent end with a battle that would become enshrined in American memory. In the eyes of many Americans at the time, the Battle of Little Bighorn represented a symbolic struggle between the civilized and the savage. Known as the Battle of the Greasy Grass to the Lakota, the Battle of Little Bighorn to the people who suppressed them, and as Custer's Last Stand in the annals of popular culture, the event continues to captivate students of American history. In *The Battle of Little Bighorn*, Debra Buchholtz narrates the history of the battle and critically examines the legacy it has left. Through government documents, newspaper articles, and eyewitness accounts, Buchholtz situates the material and symbolic

impact of the battle at the time Using popular film and cultural references she investigates the ways in which the wake of the event continues to shape the way students understand indigenous peoples the Wild West and the history of America

Archaeological Perspectives on the Battle of the Little Bighorn Douglas D. Scott, Richard A. Fox, Melissa A. Connor, Dick Harmon, 2013-05-01 Ever since the Custer massacres on June 25 1876 the question has been asked What happened what REALLY happened at the Battle of the Little Bighorn We know some of the answers because half of George Armstrong Custer's Seventh Cavalry the men with Major Marcus Reno and Captain Frederick Benteen survived the fight but what of the half that did not the troopers civilians scouts and journalist who were with Custer Now because a grass fire in August 1983 cleared the terrain of brush and grass and made possible thorough archaeological examinations of the battlefield in 1984 and 1985 we have many answers to important questions On the basis of the archaeological evidence presented in this book we know more about what kinds of weapons were used against the cavalry We know exactly where many of the men fought how they died and what happened to their bodies at the time of or after death We know how the troopers were deployed what kind of clothing they wore what kind of equipment they had how they fought Through the techniques of historical archaeology and forensic anthropology the remains and grave of one of Custer's scouts Mitch Boyer have been identified And through geomorphology and the process of elimination we know with almost 100 percent certainty where the twenty eight missing men who supposedly were buried en masse in Deep Ravine will be found
