Be First In The Universe:

The Universe Lonely Planet, 2019-10-01 Let Lonely Planet take you further than ever before with the world's first and only travel guide to the Universe. Developed with the latest data from NASA, we take you from our home on Earth and out into the far reaches of the solar system, then into our neighbouring stars and planetary systems and finally into the rest of our galaxy and the Universe. This fascinating journey will help you explore space as you would the world with a Lonely Planet guide. Unique to these pages are wonderful comparisons of Earth with the other worlds of our solar system and even those exoplanets orbiting other stars. You'll discover as much as we know about our celestial neighbourhood and our place in it. In addition to planets and moons, get to know our Sun, explore the asteroid belt and the Kuiper Belt and learn what lays beyond in interstellar space. Outside our solar system, travel to some of the notable neighbouring stars, stellar systems and exoplanets we've discovered. You'll understand how we search for planets where life might exist and the stars they orbit. Finally, discover the edge of the observable Universe. Get to know the structure of the Milky Way as well as an orientation to neighbouring galaxies like the Andromeda Galaxy, which is visible from Earth. Then explore other galactic formations and learn about galactic clusters and superclusters. By the end of the book, you'll have a sense for the structure of the entire Universe as well as some of the big questions we still have as we ponder our place in it. About Lonely Planet: Lonely Planet is a leading travel media company and the world's number one travel guidebook brand, providing both inspiring and trustworthy information for every kind of traveller since 1973. Over the past four decades, we've printed over 145 million guidebooks and grown a dedicated, passionate global community of travellers. You'll also find our content online on mobile, video and in 14 languages. 12 international magazines, armchair and lifestyle books, ebooks and more. Important Notice: The digital edition of this book may not contain all of the images found in the physical edition. *The Coolest Job in the Universe* Henry M.

A History of the Universe Henry Kong, 2007-06 At last, here is the final and most ambitious installment of Henry Kong's dazzling historical trilogy. The core question is how the people of a divided, impoverished continent emerged to conquer the world with their technology and ideas. The serendipitous triumph of Western Civilization is an epic story every educated person should know. Henry Kong's crisp and succinct narration takes the reader from the Florentine Renaissance and the French Enlightenment to the Holocaust and the end of the human race. All the key events, important figures and major trends in the arts, sciences and geopolitics are here, along with fascinating thought-provoking counterfactual scenarios. This book is a must for all history fans. **Salyut - The First Space Station** Grujica S.
