

# Sustainable Fashion

Unustainable fashion (also known as eco-fashion and Refashion) is a movement and process of fostering change to fashion products and the fashion system towards greater ecological integrity and social justice. Sustainable fashion concerns more than just addressing fashion textiles or products.

## Recycled Fabric

Polyester Yarn is made with used plastic bottles which are ready to be recycled, they are cut, chopped, and melted, then formed into flakes.

## Organic Linen

Linen in any form is a uniquely earth-friendly fiber because flax the plant from which it's made is an inherently eco-conscious crop.

## Organic Bamboo

Bamboo fiber is thinner compared to hair, and it resembles cotton in its un-spun form. It also has a round and smooth surface which makes it abrasion proof.

## Organic cotton

Organic cotton is grown using methods and materials that have a low impact on the environment. Organic production systems replenish.
