New Business Models for Sustainable Fashion Miguel Angel Gardetti, Esben Rahbek Gjerdrum Pedersen, 2022-02-13 The fashion industry has not traditionally been associated with definitions of sustainable development and sustainability. The social and environmental challenges faced by the fashion industry concern the entire supply and demand chain propped up by a throwaway consumer culture. In response to these sustainability challenges, some fashion companies have developed innovative social and environmental initiatives. While many of these initiatives are sympathetic, resourceful, and hold real potential for generating social and environmental improvements, greater scale and scope is needed in order to bring about a more fundamental shift in current practices. This Special Issue of the Journal of Corporate Citizenship explores how sustainability can be a driver for exploring new business models within a single industrial setting, highlighting some of the sustainability initiatives that bring hope for a more sustainable future. *New Business Models for Sustainable Fashion* is a must read for researchers and practitioners tackling the challenges of an industry in need of large scale transformation. **A**

Practical Guide to Sustainable Fashion Alison Gwilt, 2020-07-09 Packed with examples from groundbreaking designers such as Vivienne Westwood, Stella McCartney, Edun, and People Tree, *A Practical Guide to Sustainable Fashion* is a much needed overview of current models of fashion design and production. Alison Gwilt introduces the key issues associated with the production, use, and disposal of fashion clothing and gives step by step guidance on how to identify and evaluate the potential impacts of a garment during the design process. With innovative examples of best practice from international designers and brands, the chapters follow each key stage in the life cycle of a fashion garment and explore approaches such as low impact textiles, techniques, mono materiality, zero waste techniques, upcycling, repair and maintenance techniques, and closed loop design systems. New to this edition: More in depth coverage of design thinking, materials, manufacture, practical techniques for creating faster, recyclable fashion, and new ways forward for fashion such as including the circular economy and the Sustainable Development Goals. *Sustainable Fashion* Kirsi Niinimäki, 2013 This publication aims to provide a source of inspiration for students, designers, and companies, and all stakeholders whose interest lies in the area of sustainable fashion. The book presents approaches to fashion that embrace future oriented value. Several chapters illustrate how effective fashion can be as transformative design or change agent experimentation. A sustainable approach can also reframe current business thinking and reveal opportunities for innovative business strategies. *Sustainable Fashion* proposes how we can make positive change in current practices and how to effect new mindsets, creating transformation in fashion. **Naked Fashion** Safia Minney, 2011 Released to coincide with London Fashion Week, Safia Minney, the founder of People Tree, the pioneers in fair trade fashion, presents a guide to a more ethical, diverse, and creative approach to the fabulous world of style and fashion, which has a history of exploitation on many levels. This volume includes a selection of papers presented at the Fourth Interdisciplinary net conference *Fashion Exploring Critical Issues* held at Oxford University's Mansfield College in September 2012. The chapters offer a wide range of disciplinary perspectives to the field of fashion studies. They include analyses of collective and individual identity, global and local expressions, nationalism, modes of self-presentation, sustainability, and ethical fashion developments in the luxury markets and various theoretical and conceptual considerations. Its authors seek to challenge and contribute to commonly held understandings in fashion related to power dynamics in the fashion industry, representations of gender and class, fashion's historiography, art and fashion, socio-political considerations, fashion as material culture, and fashion across media from literature to music and dance. The goal of this collection is to advance knowledge in the field of fashion studies and to expand upon current socio-cultural understandings of what constitutes the fashion world.
