## ABSTRACT

The biographical criticism of Ernest Hemingway, as an indispensable part of Hemingway studies, has been playing a crucial role in injecting vigor and vitality with its vast number of biographical works, rich content and various forms. This paper focuses on the new Hemingway biographies published since the 21st century. By summarizing and selecting representative works, this paper discovers that biographical studies of Hemingway in the 21st century transform from comprehensiveness to specialization, from general biographies to thematic biographies. Besides, there are five new features: (1) extension of new research areas; (2) exploration of innovative and unique research perspectives; (3) application of diverse research approaches; (4) discoveries of new research materials; (5) the diversity of Hemingway's biographers.

**Keywords:** Ernest Hemingway, biographical criticism, 21st century, new trends, new features

## 1. INTRODUCTION

Ernest Hemingway, as an American writer who enjoys worldwide fame, has exerted far-reaching influence on the American literature and even the world literature. Hemingway's literary works are widely spread throughout the world while his unique writing style has affected numerous writers and Hemingway aficionados, thus making Hemingway studies in academia vibrant and prosperous. Since the 1960s, biographical studies of Ernest Hemingway has been one of the paramount components of Hemingway studies. In 1969, *Ernest Hemingway: A Life Story*, written by Carlos Baker, was published, which, until now, is still one of the most authoritative and representative biographies. Subsequently, Hemingway scholars and biographers such as Scott Donaldson, Jeffrey Meyers, Kenneth S. Lynn and Michael Reynolds etc. embarked on biographical studies of Ernest Hemingway and wrote many influential works, helping us have a more comprehensive and better understanding of Hemingway's legendary life and literary creation.

The 21st century has witnessed new developments and achievements in the field of biographical studies of Ernest Hemingway. Therefore, focusing on new monographs of Hemingway biographies published since the 21st century, it is of great importance to discover the new trends and summarize new features of biographical studies of Hemingway.

## 2. NEW TRENDS: FROM COMPREHENSIVENESS TO SPECIALIZATION

In the 20th century, most of the biographies of Hemingway concentrated on the comprehensiveness of his life experience, while in the 21st century, biographies have turned to become more specialized, focusing on a certain period of Hemingway's life, an important event, a visit to a certain place, friendship or romantic experience etc. Thematic biographies account for approximately half of the total number of Hemingway biographies, making the studies more in-depth and more specific.

In terms of a certain period of Hemingway's life, Steve Paul's *Hemingway at Eighteen: The Pivotal Year That Launched an American Legend* (2017) is the only biography that gives a detailed description of Hemingway's experience and writing in the crucial year of 1917 when he was 18 years old. On the one hand, Paul elaborates on the turning point of Hemingway's life, transforming from a high school graduate to be a cub reporter in the *Kansas City Star* before traveling to the Italy front to be a volunteer of the Red Cross during the World War I. On the other hand, Paul's work provides some valuable information, offering us a useful clue for exploring Hemingway's early writing style and literary themes. In the appendix of the biography, there are three articles newly discovered that have been identified as Hemingway's during his six months as a reporter for the *Kansas City Star*.

## **Biographical Studies:**

*Biographical Research* Ana Caetano, Magda Nico, 2022-03-30 Studying people's lives requires acknowledging the multiple entanglements between individual singularity and processes of social patterning. This book testifies how challenging and creative the study of these connections can be. It gathers international contributions that show in imaginative ways how a person's life or specific domains of existence can be observed, tackled and analysed across time. This volume reveals the potential of biographical research in the production of social theory, in the development of methodological innovation, in giving voice and protagonism to people and in the understanding of the social unfolding of their lives. It is a testimony of a vibrant and youthful field with a long tradition in social sciences and with numerous connections with other study areas, namely the life course approach. The different chapters illustrate how the challenges posed by this type of research, focused on the individual level of analysis, are particular and what creative responses are required to continue analysing the link between biography and society. The chapters in this book were originally published as a special issue of the journal *Contemporary Social Science*.

*British Sport: Biographical studies of British sportsmen, sportswomen, and animals* Richard William Cox, 2003 Volume three of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain. It lists all secondary source material, including reference works, in a classified order to meet the needs of the sports historian.

*Biographical Life Course Research* Ann Nilsen, 2023-12-13 This open access book explores an approach that connects individual and societal processes throughout history and shifting trends in sociological perspectives influenced by C Wright Mills' theories of time and temporality. It traces its origins from American pragmatist thought and Chicago qualitative sociology in the early 20th century to the revival of biographical research in European and American sociology during the 1970s. The book shows empirical studies from this vibrant research approach can bridge methodological gaps between qualitative and quantitative biographical studies applicable to various topics like class, gender, ethnicity and intergenerational dimensions.

*Biographical Research and the Meanings of Mothering* Lyudmila Nurse, Lisa Moran, Kateřina Sidiropulu-Janků, 2023-09-14 What does mothering mean in different cultures and societies? This book extensively applies biographical and narrative research methods to mothering from international perspectives. This edited collection engages with changing attitudes and approaches to mothering from women's individual biographical experiences, illuminating how socially anticipated tasks of mothering, shaped through interlinking state, media, religious beliefs and broader society, are reflected in their identities and individual life choices. Considering trust, rapport, reflexivity and self-care, this collection advances methodological practice in the study of mothers, carers and childless women's lives.
