Biology For Christian Schools Revised Ed:

Biology for Christian Schools William S. Pinkston, Bob Jones University Press, 1991 Agents of God Jeffrey Guhin, 2021 Based on a year and a half of ethnographic observation and interviews with teachers and students at four high schools in the New York City area two of them Sunni Muslim and two Evangelical Christian sociologist Jeffrey Guhin argues that these schools use politics gender sex and the internet to separate themselves from the rest of America a country they view as both a promise and a threat In examining these boundaries he describes how the schools use scripture prayer and science as a means of maintaining their authority over the students lives **Resources in Education** ,2000-04 Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1971 Inside America's Christian Schools Paul F. Parsons, 1988-06 *The Heresy of Ham, Revised Edition* Joel Edmund Anderson, 2024-11-07 One of the most controversial issues in our society today especially within Evangelicalism is that of the creation evolution debate Over the past few decades Fundamentalist apologists like Ken Ham of the young earth creationist organization Answers in Genesis have made a career convincing people that the age of the Earth and the historicity of Genesis 1 11 are not just bedrock fundamental tenets of the Christian faith but are also crucial fronts in the culture war In *The Heresy of Ham* Joel Edmund Anderson convincingly shows that not only are the YECist claims of Ken Ham unbiblical and unscientific but they have sowed the seeds of strife and division within countless Christian communities He should know he lost his job as a biblical worldview teacher at a small Evangelical school over the issue of YECism Anderson s ultimate message is simple regardless of your position regarding evolution or the interpretation of Genesis 1 11 they are not fundamental to the Christian faith and should not be used as battlefronts in the culture war If you have always had questions about the creation evolution debate the claims of YECism and the way Genesis 1 11 should be interpreted *The Heresy of Ham* is a tremendous resource for anyone struggling coming to grips with these issues *A People for His Name (Revised Edition)* Paul A. Beals, 1995-06-01 A Church Based Missions Strategy In world missions the author proposes the local church is the biblical sending body through which missionaries serve The author places emphasis upon the practical outworking of the mission responsibilities of the local church as well as its relationship to mission agencies missionary personnel and Christian schools **Science and the Bible** Henry Morris, 1986-09-08 Study scientific data and biblical truths in five chapters Science in the Bible The Theory of Evolution Science and the Flood The Bible and Ancient History and Fulfilled Prophecy Creationism USA Adam Laats, 2020-09-24 Creationism USA reveals how common misconceptions about creationism have led Americans into a century of unnecessary culture war histrionics about evolution education and creationism Adam Laats argues that Americans do not have deep fundamental disagreements about evolution but that they do have significant disagreements about creationism Creationism USA both explains the current state of America s battles over creationism and offers a nuanced yet straight forward prescription to solve them *The Creationists* Ronald L. Numbers, 1993-01-01 Forty seven percent of the American people

according to a 1991 Gallup poll believe that God made man as man is now in a single act of creation and within the last ten thousand years Ronald L Numbers chronicles the astonishing resurgence of this belief since the 1960s as well as the creationist movement's tangled roots in the theologies of late nineteenth and early twentieth century Baptists Presbyterians Lutherans Adventists and other religious groups Even more remarkable than Numbers's story of today's widespread rejection of the theory of evolution is the dramatic shift from acceptance of the earth's antiquity to the insistence of present day scientific creationists that most fossils date back to Noah's flood and its aftermath and that the earth itself is not more than ten thousand years old Numbers traces the evolution of scientific creationism and shows how the creationist movement challenges the very meaning of science
