Bir Hacheim Desert Citadel Desert Citadel:

Bir Hacheim Richard Holmes,1972 **Bir Hacheim (Bir Hakim) - Desert Citadel** Richard Holmes,1971 **The War in North Africa, 1940-1943** Colin F. Baxter,1996-03-30 Few of the major campaigns of World War II aroused as much controversy as the War in North Africa 1940 1943 Figures such as Rommel Montgomery and Eisenhower would become world famous because of the fighting in North Africa This book opens with seven historiographical essays that evaluate and critically assess the major contributions to the literature on the War in North Africa It then includes an alphabetically arranged bibliography of the 504 entries cited in the essays The material is easily accessible with cross references between the text and the bibliography and a full index The volume includes chapters on the Desert War 1940 42 the Axis Powers in North Africa Montgomery Alam Halfa and El Alamein TORCH the Landings in French North Africa and the Tunisian Campaign Full attention is given to questions and issues historians have raised on such controversies as the Auchinleck Montgomery dispute the debate over Operation TORCH and the Darlan affair Emphasis is on English language works but the most significant Italian German and French works are cited and assessed The book has been written for use in public college university and institutional libraries and to serve general readers and military historians **Iron Hulls, Iron Hearts** Ian W Walker,2012-10-01 The campaign in North Africa during World War Two was one of the most important of the conflict The allies fought for control of North Africa against the German Afrika Korps led by Rommel But the part played by Mussolini s Italian troops and in particular the armoured divisions in support of the Germans is not so well known This painstakingly researched book looks in detail at the role of Mussolini s three armoured divisions Ariete Littorio and Centauro and the invaluable part they played in Rommel s offensive between 1941 and 1943 Indeed the author is able to show that on many occasions the presence and performance of the Italian armoured divisions was crucial to the success of the axis campaign

Hitler's Bandit Hunters Philip W. Blood,2006-10 The Nazi campaign against European resistance fighters **From Tobruk to Tunis** Neal Dando,2016-04-21 This book focuses on the extent to which the physical terrain features across Egypt Libya and Tunisia affected British operations throughout the campaign in North Africa during the Second World War One main theme of the work analyses the terrain from the operational and tactical perspective and argues that the landscape features heavily influenced British operations and should now be considered alongside other standard military factors The work differs from previous studies in that it considers these additional factors for the entire campaign until the Axis surrender in May 1943 Until now it has been widely assumed that much of the Western Desert coastal plateau was a broadly level open region in which mobile armored operations were paramount However this work concentrates on the British operations to show they were driven by the need to capture and hold key features across each successive battlefield At the operational level planning was led by the need to hold key ground across Libya and especially the province of Cyrenaica during the crucial middle period of the campaign A secondary theme of the work argues that British forces began to

improvise certain tactical doctrines which altered the early practice of combined arms assaults into one of the Infantry and Armored formations fighting largely separated battles until the autumn of 1942 Other developments in doctrine which were affected by the terrain included the practice of unit dispersal to hold key ground and the use of temporary units such as Jock columns to harass and engage the enemy The two themes are inter linked and contribute fresh insights to the debate on British methods of warfare The author has consulted key primary documents reports war diaries and published memoirs from major UK archives and compared these with the campaign historiography to develop the main themes of the work These include the National Archives the Churchill Archives Center the Liddell Hart Center for Military History the National Army Museum John Rylands Center Imperial War Museum at London and Duxford and London and the Tank Museum Archives at Bovington The sources include unit war diaries after action reports along with many of the key published and some unpublished memoirs His text is supported by 24 pages of specially commissioned color maps [The Allies Strike Back, 1941-1943](#) James Holland,2020-02-26 Volume two in this expert anecdote filled thoroughly entertaining history of WWII follows The Rise of Germany as the Allied forces turn the tides Kirkus James Holland s The Rise of Germany the first volume in his War in the West trilogy was widely praised for his impeccable research and lively narrative Covering the dawn of World War II it ended at a point when the Nazi war machine appeared to be unstoppable Germany had taken Poland and France with shocking speed London was bombed and U boats harried shipping on the Atlantic But Germany hadn t actually won the Battle of Britain or the Battle of the Atlantic It was not producing airplanes or submarines fast enough And what looked like victory in Greece and Crete had expended crucial resources in short supply The Allies Strike Back continues the narrative as Germany s invasion of Russia unfolds in the east while in the west the Americans formally enter the war In North Africa following major setbacks at the hands of Rommel the Allies storm to victory Meanwhile the bombing of Germany escalates aiming to not only destroy the its military industrial and economic system but also relentlessly crush civilian morale Comprehensive and impeccably researched Holland brings a fresh eye to the ebb and flow of the conflict in this majestic saga of 20th century history Literary Review UK [Tobruk 1942](#) David Mitchelhill-Green,2016-10-06 Tobruk was one of the greatest Allied victories and one of the worst Allied defeats of the Second World War The 1942 fiasco rocked the very foundation of Winston Churchill s premiership It revived the flagging hopes of the German people and fanned the flames of Arab unrest Furthering Rommel s ascendancy and souring relations within the British Commonwealth it marked a turning point in Anglo American relations in the fight against Adolf Hitler s Third Reich Utilising a wealth of primary and secondary sources Tobruk 1942 examines why the fortress fell to Rommel s Axis forces in just 24 hours when it held out against repeated attacks the previous year Comparing the 1941 and 1942 battles this book presents a new perspective on Tobruk the isolated Libyan fortress and symbol of Allied freedom which for a period in the war captured the world s attention **Monty and Rommel** Peter Caddick-Adams,2013-09-24 An accessible well honed study of two fascinating characters who famously

fought each other in numerous battles during WWII from Egypt to D Day Kirkus Bernard Montgomery and Erwin Rommel faced one another in a series of extraordinary battles that established each man as one of the greatest generals in history Born four years apart their lives were remarkably similar Each came from provincial roots nearly died in WWI yet emerged from that great conflict with glowing records Through their many duels including their legendary conflicts in North Africa and later at the Normandy D Day invasion Peter Caddick Adams tracks and compares their military talents and personalities Monty and Rommel explores how each general was raised to power by their war leaders Churchill and Hitler and how the innovative military strategy and thought of both permeate down to today s armies Alamein Colin Smith, John Bierman, 2012-03-29 Excellent a remarkable achievement and ought to be recognised as one of the most successful histories of the Western Desert and North African fighting yet to have appeared John Keegan Daily Telegraph For the British the battle fought at El Alamein in October 1942 became the turning point of the Second World War In this study of the desert war John Bierman and Colin Smith show why it is remembered by its survivors as a war without hate Through extensive research the authors provide a compellingly fresh perspective on the see saw campaign in which the two sides chased each other back and forth across the unforgiving North African landscape
