Biofeedback And The Modification Of Behavior

Aubrey J. Yates

Biofeedback And The Modification Of Behavior:

Biofeedback and the Modification of Behavior Aubrey J. Yates, 2012-12-06 In this book I have attempted to evaluate critically the very large literature which has accumulated in the area of biofeedback over the past 10 15 years As might be expected in any area of psychology with clinical possibilities the literature divides itself into two main categories fundamental research studies and therapeutic studies It is now apparent that the clinical applications of biofeedback have far outstripped their fundamental research bases with the inevitable result that the initial wave of enthusiasm may be replaced with an unnecessarily severe skepticism Either extreme position is unjustified Biofeedback does represent an important new approach to the elucidation of the role played by internal systems in the adjustment of the organism to its environment But its potential will only be revealed if its use in practice is soundly based on fundamental research There are promising signs that this is being realized so that there is cause for optimism Aubrey J Yates Perth Australia A Note on the References With the exception of no more than two or three papers all the references in this book have been obtained and read However many of them were published in journals which will not be readily accessible to the reader who may be interested in consulting more directly particular articles which attract his attention

Biofeedback and the Modification of Behavior Aubrey James Yates, 1980 **Biofeedback and Behavior** Jackson Beatty, 2013-03-09 Biofeedback and Behavior A NATO Symposium held on 27 30 July 1976 at the Max Planck Institut für Psychiatrie in München was a multidisciplinary meeting that explored both theoretical and applied issues arising from the use of biofeedback procedures for the control of visceral central nervous system and skeletal events The symposium was multi national in its composition Financial support for the symposium was initially provided by the Scientific Affairs Division of the North Atlantic Treaty Organization as part of their continuing series of scientific symposia Funds made available by a grant from the United States Office of Naval Research permitted wide spread international participation in the symposium The facilities for the meeting were graciously provided by the Max Planck Institut für Psychiatrie We thank each of these organizations for their support in making this symposium possible A special thanks is due to Dr B A Bayraktar of the Scientific Affairs Division of NATO and Dr Donald Woodward of the U S Office of Naval Research whose counsel contributed substantially to the organization of this meeting The planning of this symposium was carried out in consultation with members of the organizing committee Rolf Engel Pola Engel Sittenfeld Laverne C Johnson George H Lawrence Gary E Schwartz and David Shapiro The final form of this symposium reflects their contributions for which we are grateful

Behavioral Medicine with the Developmentally Disabled J.H. Kedesdy, D.C. Russo, 2013-11-11 Since the late 1960s the behavioral treatment of mentally retarded autistic and other developmentally disabled persons has grown progressively more sophisticated The literature on behavioral treatment has produced effective and clinically significant programs for the reduction of maladaptive behaviors such as tantrums aggression and self injury skills deficits have been remediated through improved programs for language and life skills acquisition and new

environments have been opened in the creation of mainstream educational opportunities In spite of these advances it strikes us that this almost exclusive focus on behavior problems and skills remediation has been somewhat myopic and that much of the potential for application of behavioral science to solving problems of the developmentally disabled is as yet untapped In the 1980s an important revolution has taken place the development of the field of behavioral medicine This field in merging disease treatment and management with learning and behavior has already made impressive progress toward a reconceptualization of health care that acknowledges the centrality of behavior in disease expression Although there has as yet been only a preliminary application of this reconceptualization to the field of developmental disabilities we are convinced that further extension has great potential

Progress in Behavior Modification Michel Hersen, Richard M. Eisler, Peter M. Miller, 2013-10-22 *Progress in Behavior Modification* Volume 7 covers the developments in the study of behavioral modification The book discusses the behavioral intervention with child abuse and neglect the effects of depression in the mentally retarded and the critical issues in the assessment of headache The text also describes social skills training behavior modification in social work practice and the outcomes and elements of behavioral contracting The status of cognitive variables in assertiveness training is also considered Psychologists and psychiatrists will find the book invaluable

Biofeedback J.G. Fisher, J.P. Hatch, J.D. Rugh, 2013-06-29 The chapters of this book were prepared as task force reports under the aegis of the Biofeedback Society of America BSA The impetus for the present generation of task force reports can be dated back to 1982 when John D Rugh as President Elect of the Society announced that the updating of the task force reports would be given high priority during his term as President An ad hoc Task Force Committee was appointed in 1983 and the committee set the following objectives 1 solicit a widely based stream of input from all segments of the Biofeedback Society of America 2 establish a peer review system to assure the highest degree of scholarship and an unbiased approach 3 select for area authors only individuals who have profound knowledge of the area and who have demonstrated the ability to extend understanding by reviewing and criticizing the literature 4 prepare all reports according to a standardized format and 5 publish all the reports simultaneously Input came from several sources Many people responded with ideas and suggestions to an announcement in the BSA Newsletter that the task force reports were being revised In 1984 a symposium was conducted at the BSA annual meeting which included round table discussions and dialogues between task force report authors and the BSA membership

The Private Practice of Behavior Therapy Sheldon J. Kaplan, 2013-03-08 Entering a full time private practice and forsaking the comforts of a regular paycheck was a difficult decision for me Fortunately I was able to begin my practice on a part time basis in space rented from two physician friends By using my behavior skills for self management and organization I was then able to help my practice grow so that with some trepidation I moved into a full time practice I have continued to maintain my practice according to the same ethical professional and business assumptions discussed in this book One of the reasons for my writing this book is that at the time I was beginning my practice there was

no one text that helped me begin or to explain what nuts and bolts issues I needed to consider As my practice has grown I continued to see a need for a resource text to help the beginning therapist get started I decided to describe the assumptions methods and issues that I have used so as to present a discussion of timely issues relevant to the practice of behavior therapy
