Review M.R. El-Gewely, 1998-07-24 Progress in the applications of biotechnology depends on a wide base of basic as well as applied sciences The output of biotechnology has already proved itself in many different fields from health to biomining and from agriculture to enzyme breeding The objectives of the Biotechnology Annual Review series is to provide readers with the needed in depth knowledge by reviewing specific topics in each volume In this way it is easier for scientists to keep in touch with progress and applications in biotechnology Up to date topics are reviewed that are related to regulatory affairs social impact biodiversity and patent issues as well as production and technology *Biotechnology annual review* M.R. EL GEWELY (ed), 1995 *Special Issue: Biotechnology Annual Review 2010* Dag H. Coucheron, 2010 **Biotechnology Annual Review** M.R. El-Gewely, 2003-10-09 It is an exciting time to follow the new developments in the field of biotechnology and its wider applications in the different areas The whole genomes of over 1000 viruses and over 100 microbes can now be found in Entrez Genome The genomes represent both completely sequenced organisms and those for which sequencing is still in progress The three main domains of life bacteria archaea and eukaryota are represented as well as many viruses and organelles The exponential increase of the sequence data lead to the development of the new Bioinformatics field in order to attempt making sense at least biological sense out of all the new and fast data It will take also other techniques such as functional genomics to link the gap between a specific phenotype or a treatment and a gene sequence Functional genomics tools are therefore important for the accurate molecular diagnosis prognosis target discovery validation needed for drug development and novel targets for antibiotics development Functional genomics are also important for the confirmation of therapy in pharmacogenomics studies Biotechnology is in many respects shaping our life and affecting our means of production and the creation of jobs Progress in the applications of biotechnology depends on a wide base of basic as well as applied sciences The output of biotechnology has already proved itself in many diverse fields from health to biomining and from agriculture to enzyme breeding It is therefore difficult to follow all of the current as well as the potential applications of biotechnology The objective of the Biotechnology Annual Review series is to attempt to provide readers with the needed in depth knowledge by reviewing specific topics in biotechnology in each issue The philosophy behind this series is to encourage good reviews to make it easier for readers to keep in touch with progress and applications of biotechnology Reviews on topics related to regulatory affairs social impact of biotechnology biodiversity biosafety public acceptance and patent issues are also encouraged
