challenges The final section examines sleep's crucial role in physical health including its impact on immune function and metabolic processes supported by data from international sleep research centers and long term population studies What sets this work apart is its ability to bridge the gap between complex neuroscience and practical application making it valuable for both healthcare professionals and general readers The book addresses contemporary challenges like digital device use and shift work offering evidence based solutions while maintaining scientific rigor By connecting sleep science with psychology and public health it provides a compelling argument for prioritizing sleep in our modern lifestyles all while keeping technical concepts accessible through clear explanations and relevant examples

Preoperative Optimization of the Chronic Pain Patient Heath B. McAnally, Lynda Welton Freeman, Beth Darnall, 2019-08-26 The literature increasingly supports the position that elective surgery on poorly prepared chronic pain patients is not smart and ultimately in no one's best interest Just as patients with ischemic heart disease obstructive lung disease or diabetes can and need to be optimized prior to surgery so too should chronic pain patients The complex dynamics of chronic pain require a priori intervention targeting enhanced recovery before surgery Preoperative Optimization of the Chronic Pain Patient is a groundbreaking collaborative effort written by medical and psychological experts in the field of pain management with a specific interest in the perioperative arena The modern emphasis on biopsychosocial spiritual care is as important here as anywhere in medicine as comprehensive mind body preparation is essential to optimize outcomes That preparation entails replacing toxic thoughts e g anxiety and pain catastrophizing and behaviors e g tobacco and opioid dependence poor sleep nutrition and exercise patterns with beneficial ones Such replacement of maladaptive cognitive behavioral patterns requires the enhancement of patients motivation and the cultivation of healthy habits This book provides the framework for an evidence based synthesis of counseling and intervention for preoperative optimization of chronic pain patients Clinicians will learn to improve health and economic outcomes affecting their patient health care team and institution to identify and target relevant issues utilizing a holistic yet focused approach to optimization and to collaborate with the patient and requisite multidisciplinary care team in a streamlined efficient and effective manner
