Body Art and Performance Lea Vergine, 2000 Containing Lea Vergine's insight on the golden age of the Body Art movement and writings by the artists featured this text focuses on the artistic endeavour that uses the body as expressive material

Body Art and Performance Lea Vergine, 2007 What the Body Cost Jane Blocker, 2004 Because performance is by its very nature ephemeral it elicits a desire for what is lost more than any other form of art making But what is the nature of that desire and on what models has it been structured How has it affected the ways in which the history of performance art gets told In What the Body Cost Jane Blocker revisits key works in performance art by Carolee Schneemann Vito Acconci Hannah Wilke Yves Klein Ana Mendieta and others to challenge earlier critiques that characterize performance or body art as a purely revolutionary art form and fail to recognize its reactionary and sometimes damaging effects The scholarship to date on performance art has not she finds gone far enough in locating the body at the center of the performance nor has it acknowledged the psychic emotional or social costs exacted on that body Drawing on the work of critical theorists such as Roland Barthes and Catherine Belsey as well as queer theory and feminism What the Body Cost reads against patriarchal and heteronormative tendencies in art history while providing a corrective to the established view that performance art is necessarily transgressive Instead Blocker suggests that the historiography of performance art is a postmodern lovers discourse in which practitioners historians and critics alike fervently seek the body while doubting it can ever be found Jane Blocker is assistant professor of art history at the University of Minnesota and author of Where Is Ana Mendieta Identity Performativity and Exile 1999 Body art performance Lea Vergine, 2000 Body Art/performing the Subject Amelia Jones, 1998 With great originality and scholarship Amelia Jones maps out an extraordinary history of body art over the last three decades and embeds it in the theoretical terrain of postmodernism The result is a wonderful and permissive space in which the viewer can wander Moira Roth Trefethen professor of art history Mills College

Language, Body, and Health Paul McPherron, Vaidehi Ramanathan, 2011-11-30 This edited book addresses ways in which bodies conceived broadly get languaged and ways in which ideas of normalcy and normal bodies are held in place and reproduced The articles show how it is through this medium that people with ailments or unusual bodies get positioned and slotted in certain ways The present volume represents a departure from other works in at least two ways First it brings in discourses around bodies per se into language related research a realm that previous research has not directly engaged Second it ushers in discussions about bodies by critically addressing the language by which experiences around bodily breakdowns and ailments occur Calling attention to a host of discourses biomedical societal poststructuralist and drawing on a variety of disciplinary perspectives critical theories ethnographically gathered materials and extant data the chapters pierce the general veil of silence that we have collectively drawn regarding how some of our most intimate body dis functions impact our everyday living and sense of normalcy

Christ's Subversive Body Olga V. Solovieva,2017-11-15 Christ's Subversive Body offers a fascinating exploration of six historical examples of politically or culturally subversive usages of the body of Christ Shining a light on the enabling potential of religious rhetoric Solovieva examines how in moments of crisis or transition throughout Western history the body of Christ has been deployed in a variety of discourses including recent neo and theoconservative movements in the United States Solovieva's survey includes the iconoclastic polemics of Epiphanius at the moment of struggles for supremacy between the Roman state and the Christian church the mystical theologico political alchemy of an anonymous treatise circulated at the Council of Constance Lavater's counter Enlightenment visions of the afterlife expressed through physiognomy Dostoevsky's refashioning of ethical communities Pier Paolo Pasolini's attempts to provoke the scandal of Jesus's mission once more in the modern world and the elaboration of a political theology subordinating democratic dissent to the higher unity of a

corporately conceived unitary executive in early twenty first century America Solovieva presents her findings not as an entry into theological or Christological debates but rather as a study in comparative discourse analysis She demonstrates how these uses of Christ s body are triggered by moments of epistemological political and representational crisis in the history of Western civilization
