Body Metaphors Releasing God Feminine In Us All:

Body Metaphors ,1988 *Sex, Race, and God* Susan Thistlethwaite,2009-04-01 *Sex Race and God* is the impassioned manifesto of a white feminist s reckoning with the meaning of race including her own whiteness in doing theology We should be discussing and acting on many of Thistlethwaite s insights for quite some time She has made a vital contribution to the feminist theological enterprise and to the critical relationship between black and white women in it Carter Heyward*Sex Race and God* is a sincere attempt to listen to and learn from African American women a serious and largely successful effort to create a method that addresses differences rather than proposing wishful commonalities Many women of color will find it promising a basis for dialogue The Women s Review of BooksThis pivotal book illuminates a significant ongoing debate at the intersection of two fields contemporary theology and feminist studies ChoiceThistlethwaite does what so few white feminists have done genuinely interact with and learn from the strong differences in experience and perspective between African American women and European American women The Other Side Christian Theology in Practice Bonnie J. Miller-McLemore,2012-02-02 For the past fifty years scholars in both pastoral and practical theology have attempted to recapture human religious experience and practice as essential sites for theological engagement redefining in the process what theology is how it is done and who does it In this book Bonnie J Miller McLemore shows how this trend in scholarship has led to an expanded subject matter alternative ways of knowing and richer terms for analysis in doing Christian theology Tracing more than two decades of her own search for a more inclusive discipline one that truly grapples with theology in the midst of life *Christian Theology in Practice* shows not only where Miller McLemore herself has traveled in the field but also how pastoral and practical theology has developed during this time Looking forward Miller McLemore calls on the academy and Christian congregations to disrupt conventional theological boundaries and to acknowledge the multiplicity of shapes and places in which the wisdom of God appears **Lesbians and Lesbianisms** Claudette Kulkarni,2012-11-12 Claudette Kulkarni explores lesbian experience from a Jungian and feminist perspective through interviews with women who see themselves as lesbians or who are in a lesbian relationship Although a feminist treatment of the subject challenges the heterosexism of Jungian theory the author presents a link between theory and experience that is consistent with both approaches She concludes that when a woman finds herself loving another woman she is often responding to a profound psychological instinct to act in spite of internal conflict or external opposition and that this is a significant move in the service of personal and collective individuation and a movement toward achieving self understanding **Metaphor II** Jean-Pierre Noppen,Edith Hols,1990-01-01 Metaphor though not now the scholarly mania it once was remains a topic of great interest in many disciplines albeit with interesting shifts in emphasis Warren Shibles *Metaphor An Annotated Bibliography and History* Bloomington Ind 1971 recorded the initial interest Then *Metaphor A Bibliography of Post 1970 Publications* published by John Benjamins continued the record through the mania years up to 1985 when writings proliferated as metaphor was seen

to be a fundamental category in human thought and language Five years later there is a need for a report on the newest thinking and tendencies in the field This need is fulfilled by *Metaphor II* which offers a comprehensive view of information which would otherwise remain scattered throughout a numbing plethora of resources including many sometimes hard to find publications from Eastern Europe *Metaphor II* systematically collects references of books articles and papers published between 1985 and May 1990 and includes for completeness corrections and additions to the earlier bibliographies Abstracts are given for many of the titles while four indices disciplines semantic fields metaphor theory and names multiply the number of access points to the information

Transformation Through Menopause Marian Van Eyk McCain, 1991-09-30 This is by far the most wise and thought provoking book on menopause that I have ever read It is must reading for every woman who dares to meet the challenges of menopause fully and consciously Christiane Northrup M D This volume presents a holistic theoretical framework for understanding menopause as a major developmental event in women s lives Rather than an unpleasant phase to be endured or alleviated Marian Van Eyk McCain views menopause as an empowering experience that women can use for personal growth Artfully interweaving her research years of clinical experience and her personal perceptions of menopause to create an inspiring new vision of the change of life She goes well beyond a discussion of hormones and hot flashes to uncover the deep emotional and spiritual significance of this time in women s lives This book is not only about change on a personal or physical level but in society as well McCain lays out historical and cross cultural beliefs about menstruation and menopause and the attitudes surrounding them from taboos to reverence and points out that in our modern society women most often either try to ignore or make it through this essential period of womanhood in order to compete in a man s world on male terms In tune with recent feminist thought the author says there is a new womanpower emerging which means that it is time for women to honor their natural cycles There is no other book that combines the insights inspiration and wealth of information contained in this work It is an important book for the alternative minded baby boom generation who are seeking new ways to approach middle age

Life Before Death Lawrence Meredith, 2000-04 Lawrence Meredith writes with one question in mind What constitutes life before death The Hindus teach that there is life before life So do the Mormons and the primal scream therapists The Muslims teach that there is life after death and so does just about anybody else who s willing to be called religious Meredith argues that these views

are felonious We have the responsibility he writes to live life in the here and now and seek to experience our own religion of the body Defining and exploring the different stages of the body is key to understanding Life Before Death The body as God The body as Christ The body as spirit The body as dance The body as play The body as mortal What readers are saying about this book It takes no courage to say one is a Christian but it takes great courage to be a Christian It takes no courage to say one is a writer but it takes great courage to be a writer and write so others can comprehend the content Larry Meredith in Life Before Death shows that he has enormous courage After finishing this book the reader is more prepared to face death and even more prepared to face life Maya Angelou Author Life Before Death reminds us of the value of our todays the here and now and the joys to be savored one day at a time one victory at a time one championship at a time And when Life is the ultimate championship we don t need just a little bit more Cedric Dempsey President NCAA Meredith s vision is kaleidoscopic and his supreme revelation is that the Word made flesh is a vital form of Amazing Grace Earle Labor Ph D Wilson Professor of American Literature and Director of the Jack London Research Center **Gender and the Language of Religion A.**

July,2005-07-31 This book contributes to an understanding of the complex relationship of gender and language alongside religion and religious life as experienced by various religious groups around the world The intention is to put forward current studies in the field of linguistics and explore how gender and various religions intersect with language use The universal and diverse experience of religion provides for this unique collection of papers concerning the use of language in religious liturgy in religious communities and in interaction with identity As such the book will attract students and researchers in discourse gender studies and religious studies
