Early Modern England

Body Narratives

Edmund Coleman-Fountain

Body Narratives:

Body Narratives S. Scholz, 2000-01-27 *Body Narratives* deals with the configurations in the literature and culture of sixteenth century England. It investigates the relationship between disciplinary discourses of the human body and political body imagery in the texts of courtly writers like Spenser, Sidney, Raleigh and others and traces its interdependence in their narratives of national identity, imperial expansion and gender difference. **The Fallible Body: Narratives of Health,**

Illness & Disease Vera Kalitzkus, Peter L. Twohig, 2020-09-25 There is perhaps no subject that lends itself to interdisciplinarity better than corporeal finitude and it is a recognition of this fact that from 12 to 15 July 2006 a group of international scholars, policy makers and practitioners were brought together for the 5th annual conference Making Sense of Health, Illness and Disease. Oppression and the Body Christine Caldwell, Lucia Bennett Leighton, 2018-03-20 A timely anthology that explores power, privilege and oppression and their relationship to marginalized bodies. Asserting that the body is the main site of oppression in Western society, the contributors to this pioneering volume explore the complex issue of embodiment and how it relates to social inclusion and marginalization. In a culture where bodies of people who are brown, black, female, transgender, disabled, fat or queer are often shamed, sexualized, ignored and oppressed, what does it mean to live in a marginalized body? Through theory, personal narrative and artistic expression, this anthology explores how power, privilege, oppression and attempted disembodiment play out on the bodies of disparaged individuals and what happens when the body's expression is stereotyped and stunted. Bringing together a range of voices, this book offers strategies and practices for embodiment and activism and considers what it means to be an embodied ally to anyone experiencing bodily oppression.

Body Narratives Susanna Caviglia, 2017 This book explores in broad terms the representations and understandings of the body's physical and psychological movements' meanings during the French Enlightenment in its many guises: artistic, esthetic, social and erotic. It is centered on the fundamental tension between stasis and movement which is both constitutive of art, historical reflection and embedded in the body's existence. Stasis and movement not only correspond to the potential modalities of the body's visual representations but they are also the conditions which govern the relationship between the viewer and the artwork as well as that between the viewers and the spaces in which they encounter the represented body. Based on this dialectic, the present book proposes a dynamic approach of the body considered as a focus of composition, an object of interrogation and a site of meaning during a time when the body became the focus of an increasing number of artistic, technical, scientific and philosophical inquiries directly connected to larger historical forces and discourses. During this time, the body's stasis and movement became the vehicles for recording cultural and social transformations but also the producers of new meanings inherent to the body itself and unveiled by the development of the new scientific and philosophical approaches of it. *Understanding Narrative Identity Through Lesbian and Gay Youth* Edmund Coleman-Fountain, 2014-07-23 This book contests the idea that lesbian and gay categories are disappearing and that

sexuality is becoming fluid by showing how young people use them in a world in which heterosexuality is privileged Exploring identity making the book shows how old modernist stories of sexual being entwine with narratives of normality **The Handbook of Narrative Analysis** Anna De Fina,Alexandra Georgakopoulou,2019-02-12 Featuring contributions from leading scholars in the field The Handbook of Narrative Analysis is the first comprehensive collection of sociolinguistic scholarship on narrative analysis to be published Organized thematically to provide an accessible guide for how to engage with narrative without prescribing a rigid analytic framework Represents established modes of narrative analysis juxtaposed with innovative new methods for conducting narrative research Includes coverage of the latest advances in narrative analysis from work on social media to small stories research Introduces and exemplifies a practice based approach to narrative analysis that separates narrative from text so as to broaden the field beyond the printed page TransNarratives Kristi Carter,James Brunton,2021-08-24 Filling a gap in literature and fulfilling the need for trans focused work TransNarratives is an interdisciplinary collection featuring narratives of transgender experiences providing a sourcebook of a range of trans perspectives writing styles and trans methodological fields of applicability The works included transcend disciplinary boundaries in the pursuit of academic knowledge and creativity actively deconstructing binaries wherever they begin to appear whether with regard to gender race ability or sexuality or to the binary divisions that can sometimes separate academic and creative production Calling attention to transgender writers this unique and timely text showcases a wide variety of material including scholarship from multi and interdisciplinary transgender perspectives poetry and fiction that foregrounds trans experience and first person transgender narratives The essays poems and stories cover a range of topics relevant to transgender gender nonconforming and nonbinary experiences across time geographic location and cultures An important addition to the field this groundbreaking text will serve as an essential collection of works for students and researchers in transgender studies queer studies and gender studies FEATURES Provides accessible thematically wide ranging and stylistically diverse writings including scholarship from multi and interdisciplinary transgender perspectives Includes multi generational perspectives and non able bodied subjectivities Uniquely formatted to support a dialogue between creative and scholarly work Bodies and Narrativity Across the Early Modern World Vitus Huber,2025-10-13 This book explores the intricate connections between the body and narrative across the early modern world It examines how bodily aspects shaped the creation of stories and vice versa The writing telling or interpreting of a story is inherently tied to corporeal acts and is to varying degrees shaped by them Likewise narrativity the narrative form including the framing and structuring elements that define a story s meaning can influence how the body is experienced understood and valued Adopting an interdisciplinary approach and incorporating case studies from Africa the Americas and Europe this volume positions the body as a critical heuristic tool It moves beyond the dichotomous debate between constructivism and essentialism by emphasizing the interplay of body and narrative *Hyperandrogenism and the Marginalization of*
