A Blunt Instrument Georgette Heyer,1993 *Sharp Instrument: A Stab at Identifying the Causes of Economic Growth* Reda Cherif,Fuad Hasanov,Lichen Wang,2018-05-21 We shed new light on the determinants of growth by tackling the blunt and weak instrument problems in the empirical growth literature As an instrument for each endogenous variable we propose average values of the same variable in neighboring countries This method has the advantage of producing variable specific and time varying namely sharp and strong instruments We find that export sophistication is the only robust determinant of growth among standard growth determinants such as human capital trade financial development and institutions Our results suggest that other growth determinants may be important to the extent they help improve export sophistication **Detroit**
