Cady, 1996 This collection of works is ambitious well documented thoroughly though not turgidly referenced and comprehensively indexed It is deeply disturbing and deeply engaging Australian Feminist Studies Contributors discuss the subtle and complex relationships between various notions of feminism and peace Feminist peace issues are explored along a wide spectrum of personal and political issues from the personal violations of rape incest and domestic abuse to the violence of racism sexism economic exploitation war and genocide

Religion and Human Rights Peter Juviler, Carrie Gustafson, 2016-07-01 Much has been written about the issue of religious freedom and church state relations The contributors to this book however take up another side of the question what has been the impact of religion on human rights Representatives from various religious traditions address a broad range of topics from environmental rights to the basic validation of human rights to the rights of women in India and Iran and within Orthodox Judaism to the global imposition of criminal justice to pressures for democratization within the Catholic Church in Latin America The six major essays along with their accompanying replies answer questions and raise issues in a provocative and compelling debate

Peace Advocacy in the Shadow of War Francis Shor, 2024-01-05 For peace advocates a corollary to Clausewitz's dictum that war is politics by other means might be that other politics could prevent war By highlighting both individual peace advocates and antiwar peace organizations from World War I through the wars of the 21st century the chapters will provide insights into how these individuals and organizations articulated their opposition to and mobilized against specific wars and international regional conflicts Organized roughly in chronological order each chapter will illuminate the socio historical conditions under which such peace advocacy contested state aggression and armed combat at the national and or transnational levels Beyond understanding the specific socio historical circumstances within which these antiwar and peace advocates and organizations operated and their resultant achievements and failures the book as a whole will examine the kind of politics that perpetuate war and those that offer a challenge to that perpetuation Scholars students and the general public interested in the history of modern and contemporary wars peace and conflict studies and ethical political perspectives in the 20th and 21st centuries should find much to reflect upon in this book

Circles on the Mountain Janet M. Powers, Marica Prozo, 2016-07-25 This book combines scholarly research with first person interviews to examine the current state of women in Bosnia twenty years after the Balkan War their emotional recovery their economic situation and their prospects for the future It describes how two of the worst issues affecting Bosnian women today are domestic violence and trafficking Both are being addressed successfully by Bosnian women's organizations applying skills developed earlier in coping with rape and war trauma It demonstrates how these organizations

shoulder a societal load that various levels of government have no will or budget to address and shows that in parts of central Bosnia feelings still run high between Christians and Muslims The authors argue that where ethnic hostility persists in rural areas successful peace building should include ethnic song and dance as well as dialog groups Expanding Responsibility for the Just War Rosemary Kellison,2019 This feminist critique of just war reasoning argues for an expansion of responsibility for harms inflicted on civilians in war **Ecofeminist Philosophy** Karen Warren,2000-10-11 A philosophical exploration of the nature scope and significance of ecofeminist theory and practice This book presents the key issues concepts and arguments which motivate and sustain ecofeminism from a western philosophical perspective Pacifism, Politics, and Feminism ,2019-04-09 Pacifism Politics and Feminism Intersections and Innovations discusses a how feminist analyses allow for and encourage the re conceptualization of concepts and ideas once thought familiar from traditional ethical and political philosophy and b traditional political topics and issues through pacifist and feminist lenses The chapters that focus on the former explore the possibility of queering such concepts as autonomy violence resistance peace religion and politics while the chapters that focus on the latter bring feminist and pacifist sensibilities and arguments to bear on classic political questions such as when and how violence and war are justified the appropriateness of various responses to climate change and the correct way to engage with such topics and themes in educational institutional settings Contributors are David Boersema Barrett Emerick Tamara Fakhoury Jane Hall Fitz Gibbon William C Gay Jennifer Kling John Lawless Megan Mitchell and Harry van der Linden Weep Not for Your Children Lisa Isherwood,Rosemary Radford Ruether,2016-06-16 Violence remains endemic in today s society Religious morality and social prejudice can lead to many acts of violence going unnoticed Weep Not for Your Children presents a selection of essays that examine the ways in which religion and violence interconnect The presence of violence in the origins of cultural and religious norms is examined The essays cover a wide range of examples of violence from the Holocaust to domestic violence and from the violence created by economic systems to that created by the construction of gender itself Weep Not for Your Children challenges and provokes the reader to think beyond traditional associations of good and evil **Star Wars in the Public Square** Derek R. Sweet,2015-12-01 Speculative science fiction with its underlying socio political dialogue represents an important intersection of popular culture and public discourse As a pop culture text the animated series Star Wars The Clone Wars offers critical commentary on contemporary issues marking a moment of interplay whereby author and audience come together in what Russian philosopher Mikhail Bakhtin called collaborative meaning making This book critically examines the series as a voice in the political dialogues concerning human cloning torture just war theory peace and drone warfare
