Bringing Forth Justice Daniel E. Pilarczyk, 1997 This book in eleven short chapters raises foundational questions that we must deal with in our quest for justice questions such as Who owns creation Who is my neighbor What is fair share As we reflect on these we get a glimpse of justice that is larger than our private concerns yet embraces them too In the final analysis says the author justice is not so much an obligation as a gift It is an opportunity to take part in God's loving care for the world to assist God in making the world everything it was meant to be BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

A Theology of International Development Thia Cooper, 2020-02-05 Religion and development have been intertwined since development's beginnings yet faith based aid and development agencies consistently fail to consider how their theology and practice intersect This book offers a Christian theology of development with practical solutions to bridge the gap and return to truly faith based policies and practices Development aims to raise the living standard of the world's poor mainly through small scale projects that increase economic growth A theology of liberation provided a critique to development practice but a specific theology of development is still lacking and many faith based aid agencies have failed to adapt their practice In applying theological thinking to development the author argues that aid agencies need to address the entrenchment of unequal power relations and embrace a holistic notion of development defined by the needs of those most marginalized instead of by a focus on economic growth Development organisations need to consider the distinction between charity and justice and to empower people in the Global South paying particular attention to the intersections of race class sexuality religion and the environment Overall this book is a powerful call to upend development practice as it currently exists and to return faith based organizations to following Christian

practices It will be an important read for religion and development researchers practitioners and students *Architecture, Theology, and Ethics* Elise M. Edwards, 2024-03-18 *Architecture Theology and Ethics* Making Architectural Design More Just argues that architecture design and creativity are theological ethical concerns that ought to be considered more deeply by Christians who are committed to social and environmental justice Elise M Edwards discusses the significance of architectural design entering into ongoing conversations in theological ethics and aesthetics She argues that architectural design is not just a professional practice for wealthy clients but rather an activity that everyday people undertake when making choices that shape the spaces they inhabit If Christians think theologically about their agency in these decisions they will discover that architectural design becomes an opportunity to contribute to the flourishing for humanity and God s creation Edwards proposes an approach to architectural design that presents it as prophetic action with the power to shape our world This book then presents five moral commitments that guide design intentions and the process of design towards justice and inclusion Grounded in liberationist feminist and womanist thought *Architecture Theology and Ethics* makes a compelling case for architecture s relevance to Christian ethics and theology **The Catholic Periodical and Literature Index** ,2006

Our Catholic Faith - Teacher's Manual Michael Pennock, 2005-11 This Teacher s Wraparound Edition TWE includes the pages of the Student Text in reduced size with lessons wrapped around the margins of those pages In the bottom gutter additional resources for the teacher are included *The Basics of Christian Belief* Joshua Strahan, 2020-05-19 This reader friendly yet robust introduction to the Christian faith explores the essentials of Christianity and the impact they have on life worldview and witness Written in an accessible and engaging voice for college age readers the book connects the biblical plotline the Apostles Creed the comparative distinctiveness of Christianity and life s big questions The author shows how the Christian metanarrative speaks to questions about purpose worth ethics personhood and more and helps readers understand what it means to be a Christian in a post Christian world **American Book Publishing Record** ,2000-07 **The Publishers Weekly** ,1997
