Elections and Voters in Britain David Denver, Robert Johns, 2021-11-27
How do voters in Britain decide which party to vote for in elections Have age and education replaced class as the social basis for voting Are elections now presidentialised with voters simply choosing between party leaders What role do the media new and old play in all of this The authors examine these and other questions in the fourth edition of this popular text The core of the text is devoted to examining and explaining theories of party choice including the debate about whether voters are driven more by issues and ideology or simply by which party and leader looks least likely to make a mess of things in office The authors also devote separate chapters to turnout trends and patterns the media electoral systems the geography of party support and new to this edition referendums Fully revised and with detailed analysis of the 2019 election and the electoral fallout of Brexit the text incorporates the latest research on elections and voting behaviour and includes analysis of recent trends and developments such as the effect of digital media on electoral politics and where recent misfires leave the opinion polls

The Political Marketing Revolution Jennifer Lees-Marshment, 2004-10
This book shows how British politics is being transformed from a leadership run system to one dictated by public needs and demands No longer confined to party politics organizations including the monarchy the BBC universities local councils charities and the Scottish Parliament are adopting the tools of market intelligence to understand their market needs and demands The political marketing revolution raises many questions such as whether the student or patient really does know best and can decide his own education and health care The book calls for a debate about the movement of the British political system towards a market orientation and a renegotiation of the relationship between leaders and the market While recognizing the need for political leaders to listen this debate places some responsibilities on the political consumer looking to create a new relationship that might work more effectively for both sides

The British Conservative Party and One Nation Politics David Seawright, 2010-01-01
Reconstructing Conservatism? Richard Hayton, 2017-10-03

party leadership seek to reconstruct Conservatism and modernise its electoral appeal Of vital interest to anyone interested in British politics this highly readable book addresses these questions through a contextualised assessment of Conservative Party politics between 1997 and 2010 It traces debates over strategy amongst the party elite and scrutinises the actions of the leadership It also considers four particular dilemmas for contemporary Conservatism European integration national identity and the English Question social liberalism versus social authoritarianism and the problems posed by a neo liberal political economy The book argues that the ideological legacy of Thatcherism played a central role in framing and shaping these intraparty debates and that an appreciation of this is vital for explaining the nature and limits of the Conservatives renewal under Cameron
