Britain Speaks Out, 1937-87 Robert Wybrow, 1989 Britain's Last Religious Revival? C. Field, 2015-02-25 This is a major contribution to scholarly debates on the chronology and nature of secularization in modern Britain Combining historical and social scientific insights it analyses a range of statistical evidence for the long 1950s testing and largely rejecting Callum Brown's claims that there was a religious resurgence during this period The Political Economy of Nationalisation in Britain, 1920-1950 Robert Millward, John Singleton, 2002-04-18 In this 1998 book experts in British industrial history analyse the causes of nationalisation in the 1940s Britain Since 1945 David Childs, 2006 This is the sixth edition of what has become the standard textbook on contemporary British political history since the end of World War II This authoritative chronological survey discusses domestic policy and politics in particular but also covers external and international relations The new and improved edition of this important book brings the picture to the present by including the following additions September 11th the Iraq war and after the election of Iain Duncan Smith DS and Michael Howard as leaders of the Conservative party the issue of immigration the new royal wedding the 2005 election the importance of China on the British stage Britain since 1945 is essential reading for any student of contemporary British history and politics
