Culley, 2014-07-22 British Women's Life Writing 1760-1840 brings together for the first time a wide range of print and manuscript sources to demonstrate women's innovative approach to self-representation. It examines canonical writers such as Mary Wollstonecraft, Mary Robinson and Helen Maria Williams amongst others. Lives of Victorian Literary Figures, Part VII, Volume 1 Ralph Pite, Keith Carabine, Tom Hubbard, Lindy Stiebel, 2024-05-31 This volume presents documents that roughly follow the chronology of Joseph Conrad's life and deliberately considers two documents that reveal surprising and important facts that Conrad had carefully concealed. Lives of Shakespearean Actors, Part IV, Volume 3 Gail Marshall, Tetsuo Kishi, Christy Desmet, Janice Norwood, 2024-05-17 Features three female actors who were significant in their development of new and innovative ways of performing Shakespeare. *The Visual Worlds of Life Writing* Kerstin Maria Pahl, 2025-01-04 An Open Access edition is available. The Visual Worlds of Life Writing brings into conversation the two most popular genres in long eighteenth-century England: portraits and biographies. As key instruments of social formation when Britain was forging the nation, Linda Colley, they were wielded alike by Whigs and Tories, the aristocracy and the commercial middle classes, high-class artists and grub street writers. They were most persuasive, however, when used jointly: portrait prints ideally accompanied by Brief Lives sold by the thousands. National histories were re-issued to include pictures. Portraitists were required to stage their sitters as though taken from real-life situations. Embedded into such interplay between texts and images was an aesthetic claim: doing biography was a multimedia enterprise. Far from being just words on a page, eighteenth-century life writing came with frontispiece portraits, illustrations or elaborate title pages. Biographers directed their readers to existing portraits of their subjects to enhance the reading experience. Portraits made of calligraphic writing blurred the boundaries between text and image. As a thorough reassessment of visual culture's role in producing biographies, this book offers an in-depth analysis of the rhetorics of portraiture and life writing, an historical account of their sister-arts tradition.
