Beethovens Diabelli Variations

**William Kinderman, Ludwig van
Beethoven**

Beethovens Diabelli Variations:

Beethoven's Diabelli Variations William Kinderman, 1999 Beethoven's Thirty Three Variations on a Waltz by Diabelli his longest and most complex piece for piano stands beside the Ninth Symphony the Missa Solemnis and the late quartets as one of the monumental achievements of his last period In this first extended study of these variations William Kinderman investigates their compositional origins and explores them in the context of Beethoven's other works of this time Kinderman shows how the composer transforms parodies and ultimately transcends Diabelli's commonplace waltz in a fascinating series of historical allusions to other composers in the final variations Kinderman's discussion provides considerable insight into Beethoven's working methods and illuminates the structure of the finished work and ultimately the nature of the creative process itself This new reissue of Kinderman's classic text includes a free CD of his celebrated recording of the Diabelli Variations described by Andras Schiff as a very vivid sounding experience

Beethoven Forum Mark Evan Bonds, Elaine Sisman, 1999-01-01 The essays in this volume grew out of an international Beethoven conference held in honor of Lewis Lockwood at Harvard University in 1996 Michelle Fillion's opening essay explores the Mass in C and its turn away from the heroic style of the middle period works In Beethoven and the Aesthetic State Karol Berger reflects on the manner in which the composer's music often shifts back and forth between a real and an imagined world William Drabkin examines the role of the cello part in Beethoven's late quartets particularly in regard to the elusive parameter of texture Richard Kramer's reading of the song Resignation 1818 opens new perspectives on the idea of a late style in the composer's

output In Beethoven's Expressive Markings Leo Treitler demonstrates how seemingly straightforward directions to performers about tempo mood or dynamics raise fundamental questions about the relationship between music and language Michael C Tusa reviews more than a century of attempts to relate form and content in the last movement of the Ninth Symphony and offers a new interpretation on the idea of the choral finale as a kind of four movement symphony in its own right Maynard Solomon's essay on the Diabelli variations argues that the theme itself although simple is by no means trivial and indeed is perfectly suited to unpacking issues of firstness and lastness and their interchangeability William Drabkin concludes the volume with a review essay on Beethoven Interpretationen seiner Werke edited by Albrecht Riethmüller Carl Dahlhaus and Alexander Ringer **Closure in Beethoven's Diabelli Variations, Op. 120** Yun Ying Chua, University of Manchester. Department of Music, 2004
