British Policy In Relation To Poland In The Second World War:

British Policy in Relation to Poland in the Second World War Stanisław Żochowski, 1988 **British Policy Towards Poland, 1944-1956** Andrea Mason, 2018-11-19 This book examines the outcome of the British commitment to reconstitute a sovereign Polish state and establish a democratic Polish government after the Second World War It analyses the wartime origins of Churchill's commitment to Poland and assesses the reasons for the collapse of British efforts to support the leader of the Polish opposition Stanisław Mikołajczyk in countering the attempt by the Polish communist party to establish one party rule after the war This examination of Anglo Polish relations is set within the broader context of emerging early Cold War tensions It addresses the shift in British foreign policy after 1945 towards the US the Soviet Union and Europe as British leaders and policymakers adjusted both to the new post war international circumstances and to the domestic constraints which increasingly limited British policy options This work analyses the reasons for Ernest Bevin's decision to disengage from Poland helping to advance the debate on the larger question of Bevin's vision of Britain's place within the newly reconfigured international system The final chapter surveys British policy towards Poland from the period of Sovietisation in the late 1940s up to the October 1956 revolution arguing that Poland's process of liberalisation in the mid 1950s served as the catalyst for limited British reengagement in Eastern Europe **Britain and Poland 1939-1943** Anita Prazmowska, 1995-03-23 Poland was a problematic issue for the Big Powers throughout the Second World War For Britain Poland was a major stumbling block in British Soviet relations as Polish Soviet territorial disputes clashed with the needs of the British Soviet United States alliance As the Polish government in exile attempted to obtain a guarantee of British support and many thousands of Polish troops fought for the British cause the perception grew that the Churchill government had a debt to pay Ultimately however it was a debt which Britain could not discharge because of its dependence on Soviet participation in the war In this book Anita Prazmowska looks at British policies from the point of view of wartime strategy relating this to Polish government expectations and policies She describes a tragic situation where Polish soldiers were trapped between the grandiose and unrealistic plans of their government and the harsh realities of a war which they fought with no prospect of a satisfactory outcome for them or their country *General Władysław Sikorski, 1881-1943* Evan McGilvray, 2024-11-30 General Władysław Sikorski was the Head of the wartime Polish Government and Polish Commander in Chief 1939-1943 Sikorski rose to prominence in Poland between 1910 and 1918 as part of the movement towards Polish independence achieved in 1918 In 1920 Sikorski was largely responsible for the defeat of the Red Army In 1926 he fell from favor following a military coup During this fallow period 1926-1939 Sikorski traveled mainly in France He also wrote influential military science treatises In September 1939 Germany and the Soviet Union invaded and annexed Poland Sikorski his military offices refused by the Polish Government fled to Romania There he was intercepted by the French ambassador to Poland and taken to Paris where he established a Polish Government in Exile and rebuilt the Polish Army In May 1940 France

was overrun by Germany Sikorski removed himself and his government to London There he began to re build the Polish army largely lost in France Following the German invasion of the Soviet Union Sikorski was forced by the British Government to accept the Soviets as allies This led to a larger Polish army being formed in the Soviet Union and sent to the Middle East commanded by General Anders who was to become a thorn in Sikorski s side By 1943 the two men were clearly enemies Sikorski died in an air crash off Gibraltar The cause has never been satisfactory established *Poland in the Twentieth Century* P. Stachura,1999-04-26 Comprising mostly original essays this book offers challenging reassessments of some of the most important and controversial themes in Polish history from 1900 until the present In analysing Poland s triumphs and tribulations with an informed and searching eye the author achieves a high level of intellectual coherence and nuanced historical perspectives The overall result is a major contribution to a field of study which has gained even more significance and scholarly impetus since the collapse of Communism in Poland in 1989 90 Britain, Poland and the Eastern Front, 1939 Anita J. Prazmowska,1987-07-23 This book offers a revisionist interpretation of British foreign policy towards Poland and the role of the Anglo Polish relationship during the period March September 1939 It challenges and questions hitherto held views on the British determination to defend Poland and oppose German expansion eastwards It includes a study of foreign policy economic policy and military planning This book is a major contribution to our knowledge of the outbreak of the war because it contains a unique and original study of the role of the Poles in British proposals for an eastern front and the Polish perception of their relationship with Germany Finally the inconclusive nature of British approaches to the Soviet Union and the Rumanian government are put into the context of the abortive proposal for an eastern front against Germany **Lower Silesia From Nazi Germany To Communist Poland 1942-49** Sebastian Siebel-Achenbach,1994-01-21 Lower Silesia was one of the regions Germany lost to Poland following the Second World War During the space of a few years the entire territory was transformed reversing the tradition of centuries The eviction and suffering of the indigenous Germans is contrasted with the similar hardships the Polish resettlers were forced to undergo Striking is the similarity of manipulation of both Silesian groups by their political masters That Lower Silesia was ceded at all reveals much about wartime and postwar Allied negotiations which culminated in the Cold War **Neville Chamberlain, Appeasement, and the British Road to War** Frank McDonough,1998 Drawing on a wide range of material including primary sources Frank McDonough re examines the controversial policy of appeasement and argues that appeasement was part of a broad consensus in British society at the time Churchill, Whitehall and the Soviet Union, 1940-45 M. Folly,2000-04-19 World War II threw Britain and the Soviet Union together as unlikely allies This book examines British policy makers attitudes to cooperation with the USSR and shows how views of internal developments in the USSR and of Stalin himself influenced Churchill the War Cabinet and the Foreign Office to believe that long term collaboration was a desirable and achievable goal In particular it was assumed that a shared concern to prevent future German aggression would be a lasting bond Such attitudes significantly shaped Britain s wartime

policy towards the USSR and for many individuals including Churchill played a more important role than their long standing anti Communist attitudes

In the Shadow of Munich. British Policy towards Czechoslovakia from 1938 to 1942 Vít Smetana, 2008-01-01

The book *In the Shadow of Munich* British Policy towards Czechoslovakia from the Endorsement to the Renunciation of the Munich Agreement 1938 to 1942 analyses the varying attitudes and gradual change of British policy towards Czechoslovakia in the period from the Munich Conference in September 1938 to August 1942 when the British government proclaimed the Munich Agreement as dead and thus having no influence whatsoever on the future territorial settlement. The key focus of this work lies in the influence of Munich upon the British political scene and upon the resulting British policy towards Czechoslovakia in the Central European context and also in the repercussions of Munich in negotiations with the Czechoslovak exile representatives. The book is a result of many years of the author's research conducted primarily in the British and the Czech archives as well as his reflection of numerous documentary editions, diaries, memoirs and secondary sources. It aims to dispel frequent myths and stereotypes that have so far influenced the Czech and partly also Anglo Saxon historiography in their interpretations of British attitudes towards Czechoslovakia immediately before and during the Second World War.
