British Slave Emancipation The Sugar Colonies And The Great Experiment 1830 1865:

British Slave Emancipation William A. Green,1991 This is a study of the West Indies in the mid nineteenth century William A Green draws together the experiences of more than a dozen different sugar colonies and forms them into a coherent historical account The first part of the book examines the West Indies on the eve of emancipation in 1830 the second explores the politics and society of the islands during the period 1830 1865 a key passage in West Indian history Professor Green presents a clear general picture of the sugar colonies and places British governmental policy towards the region in the context of Victorian attitudes towards colonial questions His lucid and comprehensive account is an important contribution to Caribbean history

Who Abolished Slavery? Seymour Drescher, Pieter C. Emmer, João Pedro Marques, 2021-01-11 The past half century has produced a mass of information regarding slave resistance ranging from individual acts of disobedience to massive uprisings Many of these acts of rebellion have been studied extensively yet the ultimate goals of the insurgents remain open for discussion Recently several historians have suggested that slaves achieved their own freedom by resisting slavery which counters the predominant argument that abolitionist pressure groups parliamentarians and the governmental and anti governmental armies of the various slaveholding empires were the prime movers behind emancipation Marques one of the leading historians of slavery and abolition argues that in most cases it is impossible to establish a direct relation between slaves uprisings and the emancipation laws that would be approved in the western countries Following this presentation his arguments are taken up by a dozen of the most outstanding historians in this field In a concluding chapter Marques responds briefly to their comments and evaluates the degree to which they challenge or enhance his view

The Overthrow of Colonial Slavery Robin Blackburn, 2024-12-10 In 1770 a handful of European nations ruled the Americas drawing from them a stream of products both everyday and exotic Some two and a half million black slaves imprisoned in plantation colonies toiled to produce the sugar coffee cotton ginger and indigo craved by Europeans By 1848 the major systems of colonial slavery had been swept away either by independence movements slave revolts abolitionists or some combination of all three How did this happen Robin Blackburn's history captures the complexity of a revolutionary age in a compelling narrative In some cases colonial rule fell while slavery flourished as happened in the South of the United States and in Brazil elsewhere slavery ended but colonial rule remained as in the British West Indies and French Windwards But in French St Domingue the future Haiti and in Spanish South and Central America both colonialism and slavery were defeated This story of slave liberation and American independence highlights the pivotal role of the first emancipation in the French Antilles in the 1790s the parallel actions of slave resistance and metropolitan abolitionism and the contradictory implications of slaveholder patriotism The dramatic events of this epoch are examined from an unexpected vantage point showing how the torch of anti slavery passed from the medieval communes to dissident Quakers from African maroons to radical pirates from Granville Sharp and Ottobah Cuguano to Toussaint L Overture from the black Jacobins to

the Liberators of South America and from the African Baptists in Jamaica to the Revolutionaries of 1848 in Europe and the Caribbean

Slave Emancipation and Racial Attitudes in Nineteenth-Century South Africa R. L. Watson, 2012-02-20 Examines the significance of the abolition of slavery in South Africa's Cape Colony in 1834 and the subsequent development of race relations

Indentured Labour in the British Empire, 1834-1920 Kay Saunders, 2018-03-14 First published in 1984 Indentured labour migration in the nineteenth century intersects many of the most serious issues of our own time racism Third World poverty and the arrogance of a great world powers Indenture suggests lack of freedom and the exploitation of people formed into exile or misadventure Coming as it did after the abolition of slavery in the British Empire in 1834 in many respects it can be regarded as a replacement of the slave labour system Indeed both concerned humanitarians and officials in the nineteenth century and many historians subsequently have regarded indentured labour merely as a new system of slavery Many of the articles in this book address themselves to this assertion whilst investigating the particular variations inherent in their geographic area The differing patterns of Indian indenture in the West Indies and British Guiana coming almost immediately after slavery forms the first section of this book Attention is given to the Indians engaged in the sugar industries in Mauritius and Fiji and the rubber industry in Malaya The use of Pacific Islanders in the Queensland industry is also examined particularly in the sugar industry which by the early twentieth century contained the unique pattern of white expensive unionized labour Other groups dealt with include the aboriginal workers in Australia and the Chinese workers in the Transvaal Overall this book is comprehensive and far reaching in its scope and the complex issues which it raises

The cultural construction of the British world Barry Crosbie, Mark Hampton, 2017-03-01 What were the cultural factors that held the British world together How was Britishness understood at home in the Empire and in areas of informal British influence This book makes the case for a cultural British world and examines how it took shape in a wide range of locations ranging from India to Jamaica from Sierra Leone to Australia and from south China to New Zealand These eleven original essays explore a wide range of topics including images of nakedness humanitarianism anti slavery literary criticism travel narratives legal cultures visions of capitalism and household possessions The book argues that the debates around these issues as well as the consumer culture associated with them helped give the British world a sense of cohesion and identity This book will be essential reading for historians of imperialism and globalisation and includes contributions from some of the most prominent historians of British imperial and cultural history

From Slavery to Freedom Seymour Drescher, 1999-05-17 The entries in this volume focus upon the rise and fall of the Atlantic slave system in comparative perspective The subjects range from the rise of the slave trade in early modern Europe to a comparison of slave trade and the Holocaust of the twentieth century dealing with both the history and historiography of slavery and abolition They include essays on British French Dutch and Brazilian abolition as well as essays on the historiography of slavery and abolition since the publication of Eric Williams's *Capitalism and Slavery* more than fifty years ago

The Meaning Of Freedom Frank

McGlynn, Seymour Drescher, 1992-05-15 In this interdisciplinary study scholars consider the aftermath of slavery focusing on Caribbean societies and the southern United States What was the nature and impact of slave emancipation Did the change in legal status conceal underlying continuities in American plantation societies Was there a common postemancipation pattern of economic development How did emancipation affect the politics and culture of race and class This comparative study addresses precisely these types of questions as it makes a significant contribution to a new growing field Rethinking the Fall of the Planter Class Christer Petley, 2018-03-08 From the late eighteenth century the planter class of the British Caribbean were faced with challenges stemming from revolutions war the rise of abolitionism and social change By the nineteenth century this once powerful group within the British Empire found itself struggling to influence an increasingly hostile government in London By 1807 parliament had voted to abolish the slave trade an early episode in a wider drama of decline for New World plantation economies This book brings together chapters by a group of leading scholars to rethink the question of the fall of the planter class offering a variety of new approaches to the topic encompassing economic political cultural and social history and providing a significant new contribution to our rapidly evolving understanding of the end of slavery in the British Atlantic empire This book was originally published as a special issue of Atlantic Studies **Handbook Global History of Work** Karin Hofmeester, Marcel van der Linden, 2017-11-20 Coffee from East Africa wine from California chocolate from the Ivory Coast all those every day products are based on labour often produced under appalling conditions but always involving the combination of various work processes we are often not aware of What is the day to day reality for workers in various parts of the world and how was it in the past How do they work today and how did they work in the past These and many other questions comprise the field of the global history of work a young discipline that is introduced with this handbook In 8 thematic chapters this book discusses these aspects of work in a global and long term perspective paying attention to several kinds of work Convict labour slave and wage labour labour migration and workers of the textile industry but also workers organisation strikes and motivations for work are part of this first handbook of global labour history written by the most renowned scholars of the profession
