late twenties after a particularly low period fueled by rejection and disillusionment she grabbed hold of her own destiny and entered into what she calls an Era of Ignition a time of self reflection that follows in the wake of personal upheaval and leads us to challenge the status quo In the process of undergoing this metaphysical metamorphosis she realized that our country is going through an Era of Ignition of its own and she set about agitating for change by initiating a dialogue about gender inequality In this deeply personal exploration of modern feminism she addresses misogyny and discrimination reproductive rights and sexual assault white feminism and pay parity all through the lens of her own experiences as well as those of her Sisters in Solidarity At once an intimate meditation and a public reckoning Era of Ignition is a galvanizing feminist manifesto that is required reading for anyone who wants to help change the world for the better *U.S. Geological Survey Professional Paper* ,1984 *EU Environmental Law, Governance and Decision-Making* Maria Lee,2014-01-12 A vast and diverse body of EU law addresses an enormous range of environmental matters This book examines a number of areas of substantive EU environmental law focusing on the striking preoccupation of EU environmental law with the structure of decision making It highlights the observation that environmental protection and environmental decision making depend intimately on both detailed specialised information about the physical state of the world and on political judgments about values and priorities It also explores the elaborate mechanisms that attempt to bring these distinctive decision making resources into EU environmental law in areas including industrial pollution chemicals regulation environmental assessment and climate change Congressional Record United States.
