Dynamical Grammar Peter W. Culicover, Andrzej Nowak, 2003 *Dynamical Grammar* explores the consequences for language acquisition language evolution and linguistic theory of taking the underlying architecture of the language faculty to be that of a dynamical system The authors investigate whether it is possible for a complex adaptive system to identify the categories structures and rules of a language given access only to instances of grammatical utterances of that language The linguistic tradition says that this is impossible but there is a growing body of literature in psychology and computer science arguing that grammar can be uncovered using purely statistical techniques applied to the distribution of forms in a string of words The book goes on to discuss whether a learner requires information about structure that goes beyond the information

that is contained in the meaning Does the learner have to have knowledge of grammar per se prior to language acquisition as has been traditionally assumed The authors ask whether it is possible to adequately describe and explain linguistic phenomena if we restrict ourselves to the relatively impoverished apparatus that we require for language acquisition They explore the consequences of adopting a radical form of minimalism to try to reconcile the linguistic facts with the book's perspective of language acquisition Culicover and Nowak investigate to what extent it is possible to account for language variation in dynamical terms as a consequence of the behaviour of the complex social network in which languages and the properties of languages are acquired by learners through interactions with other speakers over time

Epistemic Indefinites Luis Alonso-Ovalle, Paula Mene'ndez-Benito, 2015-04-30 This book brings together novel work on the semantics and pragmatics of certain indefinite expressions that also convey modality These epistemic indefinites are determiners or pronouns that signal ignorance on the part of the speaker such as German *irgendein* and Spanish *algún* in the sentence *María se casó con algún médico* María married some doctor or other both makes an existential statement that there is a doctor that María married and signals the speaker's inability or unwillingness to identify the doctor in question Although epistemic indefinites have featured in recent semantic literature a full understanding of the phenomenon is still lacking there is currently no agreement on the source of their epistemic component there is insufficient cross linguistic data to develop a semantic typology of these items and the parallelisms and differences between epistemic indefinites and other expressions that convey epistemic modality have not been explored in depth In this volume a team of experts in the field offer novel empirical observations and important theoretical insights on epistemic indefinites and related topics such as modal free relatives modified numerals and epistemic modals They provide a coherent

overview of the issues that shape the subject as well as placing them in the context of current semantic research moving towards the development of a semantic typology of epistemic indefinites that explores the place of these expressions within a general typology of modal items *Practical English Grammar & Composition* SC Gupta, 2018-04-20 To understand and make the practical use of the grammatical rules is a challenge poised at various competitive exams Students preparing for various competitive exams need elucidated grammar rules that are explained in a very easy and understandable language Practical English Grammar Composition is the hand book and an easy guide to learn English aimed at learning and improving knowledge of grammar and its applicability In order to make the students conversant with the practical applicability of the grammar rules sentences depicting the right usage are also given after the rules A number of solved exercises are also given after the chapters that enable the students test their acquired knowledge Word Powers section is a unique feature of the book that will play a crucial role in making the students ready to face the competitions ahead **Reports from**
