Brainstorms And Thunderbolt:

Libertas and Thunderbolt Ronald L. Clark, 2012-07 CAUTION Reading this book may cause your mind to be deliberately stretched well beyond its ability to shrink back to its original dimensions Carl Sagan Steven Hawking and others are well known for their theory of why we do not see abundant intelligent extraterrestrial life all around us The reason being that once intelligent life discovers technology that technology is used in a self destructive orgy that brings about the extinction of all intelligent life within reach So when one looks out into the Cosmos to search for intelligent life all life that once was there no longer exists save mankind This theory of course has profound implications for us stranded here on spaceship Earth especially as we watch in horror as our technology grinds out bigger and more powerful weapons of mass destruction every day This book is a flight of fancy that supposes our Creators with profound apologies to those who do not believe we have Creators have undertaken a mission to save Humankind from blowing themselves to kingdom come just like all of the other Intelligent life has already done well before mankind began to build parking lots and Condos Our Creators have names and their names are Yahweh and Asherah So come take an interstellar ride with Yahweh and Asherah as they struggle to help Humankind become an exception to the doomsday theories of Sagan and Hawking *The Thunderbolt* Clyde Perrin, 1923
