Branch Line Memories Volume 1

Dennis De Witt

Branch Line Memories Volume 1:

The Railway Magazine ,1928 GWR Locomotives: The Prairies Allen Jackson,2022-11-15 The latest volume in Allen Jackson s series examining the locomotives of the Great Western Railway Profusely illustrated throughout **The East Coast Main Line 1939-1959 (Volume 2)** Peter Tuffrey,B. W. L. Brooksbank,2022-07-02 The first detailed study of this huge mainline through its operational history Features extended commentaries from the authors rich in detail Superbly illustrated with black and white photographs many never seen before In this second and final volume the whole of the East Coast Main Line between King s Cross and Edinburgh Waverley stations is examined closely with a particular emphasis on the ways and structures the line stations connections yards and other physical features Interposed are accounts of the traffic at the principal stations including connecting and branch line services with observations on changes over the period 1939 to 1959 Some emphasis is placed on freight traffic on account of its importance and perhaps its relative unfamiliarity to the reader The lines stations and many other elements are described as they were in August 1939 but as some plans on which they are based are dated before the late 1930s there may be marginal differences from the precise layout in 1939 *Branch Line Memories. Vol. 1 - Great Western* Lewis Reade,1983 **The Pennsylvania Railroad, Volume 1** Albert J. Churella,2012-10-29 Do not think of the Pennsylvania Railroad as a business enterprise Forbes magazine informed its readers in May 1936 Think of it as a nation At the end of the nineteenth century the Pennsylvania Railroad was the largest privately owned business corporation in the world In 1914 the PRR employed more than two hundred thousand people more than double the number of soldiers in the United States Army As the self proclaimed Standard Railroad of the World this colossal corporate body underwrote American industrial expansion and shaped the economic political and social environment of the United States In turn the PRR was fundamentally shaped by the American landscape adapting to geography as well as shifts in competitive economics and public policy Albert J Churella s masterful account certain to become the authoritative history of the Pennsylvania Railroad illuminates broad themes in American history from the development of managerial practices and labor relations to the relationship between business and government to advances in technology and transportation Churella situates exhaustive archival research on the Pennsylvania Railroad within the social economic and technological changes of nineteenth and twentieth century America chronicling the epic history of the PRR intertwined with that of a developing nation This first volume opens with the development of the Main Line of Public Works devised by Pennsylvanians in the 1820s to compete with the Erie Canal Though a public rather than a private enterprise the Main Line foreshadowed the establishment of the Pennsylvania Railroad in 1846 Over the next decades as the nation weathered the Civil War industrial expansion and labor unrest the PRR expanded despite competition with rival railroads and disputes with such figures as Andrew Carnegie and John D Rockefeller The dawn of the twentieth century brought a measure of stability to the railroad industry enabling the creation of such architectural monuments as Pennsylvania Station in New York City The

volume closes at the threshold of American involvement in World War I as the strategies that PRR executives had perfected in previous decades proved less effective at guiding the company through increasingly tumultuous economic and political waters *The New Zealand Railway Observer* ,1980 *Prisoners of the Sumatra Railway* Lizzie Oliver,2017-12-14

Prisoners of the Sumatra Railway is the first book to detail the experiences of British former prisoners of war POWs who were forced to construct a railway across Sumatra during the Japanese occupation It is also the first study to be undertaken of the life writing of POWs held captive by the Japanese during the Second World War and the transgenerational responses in Britain to this period of captivity This book brings to light previously unpublished materials including Exceptionally rare and detailed diaries notebooks and letters from the railway Memoirs from Sumatra including detailed recollections and post war statements written by key personnel on the railway such as Medical Officers and interpreters Remarkable original artwork created by POWs on Sumatra Contemporaneous photographs taken inside the camps Employing theories of life writing memory and war representation including transgenerational transmission Lizzie Oliver focuses particularly on what these documents can tell us about how former POWs tried to share preserve and make sense of their experiences It is a wholly original study that is of great value to Second World War scholars and anyone interested in 20th century Southeast Asian history or war and memory *Eurasians at the Grassroots - Vol. 1* Dennis De Witt,2013-12-27 *Eurasians at the Grassroots* Vol 1 is a collection of short stories regarding Eurasians and the memories of Eurasians Its purpose is to collect and publish stories as a collective work about Eurasians by Eurasians and for Eurasians It is intended for this publication to consist of a collection of stories about the background history culture and heritage of the average Eurasian family It is not intended for this publication to be about famous or historical Eurasian figures but to include stories from the grassroots of the Eurasian society The stories were contributed by people from Malaysia and outside Malaysia and about all aspects of Eurasian heritage and culture from Malaysia and all over the world Most people understand the term Eurasian as simply a hybrid between European and Asian Many more do not understand the term at all and others simply find it curious why there is a need to categorise such a race at all In this part of the world Eurasians refers to people of mixed Asian and European ancestry They are descended from colonial times of the Portuguese Dutch and British The Portuguese descendants who mostly have their roots in Malacca call themselves Kristang There are also Dutch and British descent Eurasians in Malaysia and Singapore However there are also Eurasians whose ancestors were from other parts of Europe such as Spain Germany and France who came out East with the ships of the Colonial powers of their time We must not also leave out the Eurasians in The Netherlands who came from Indonesia From an article received we now also know that there were Eurasians from China These days in the advent of a globalised world there are Eurasians living in practically every corner of the globe Therefore it is a joy to find that we have here contributors from near and far There are articles from those in Malaysia Singapore as well as from Australia The Netherlands and USA This makes a good start to what should be the first in a series of articles on the

Eurasians and we look forward to expand the project in the future to collect more of such stories It will help to provide a better understanding of the heritage and culture of the Eurasians and a glimpse to view our many similarities It also provides valued information on the many individuals and sub groups of Eurasians for the sake of putting their stories on record for the benefit of the future generations

The Railways of Bradford & Leeds Peter Waller, 2023-12-30 It was to the south west of Leeds that one of the key lines in the development of Britain's railway network the Middleton Railway established the principle of seeking parliamentary sanction for the construction of a new form of transport Five decades later in the early nineteenth century it was again the Middleton Railway that was at the forefront of the use of steam rather than animal power to move coal from colliery to market From the early 1830s through until the early years of the twentieth century the local railway network continued to expand indeed if it had not been for the outbreak of the First World War in 1914 the area would have played host to one of the last first generation main lines to be constructed with the Midland Railway planning and partially constructing a new main line north from Royston In the event the line was never completed consigning Bradford to be served by no more than glorified branch lines Providing a largely illustrated account to the history of the railway development of the area the book includes a fascinating selection of illustrations that focus on the evolution of the network in the almost eighty years since the end of the Second World War
