Psychological Testing David Bartram, Patricia Lindley, 2009-02-09 This self study manual provides users with all the learning materials they need to train for the British Psychological Society's new Test Administration Certificate. Provides a structured programme of training covering all the learning requirements for the Certificate. Also suitable for use on other courses in test administration. Includes material on computer based, Internet based and other mixed modes of test administration. Contains self assessment exercises to enable users to monitor their progress and know when they are ready to be assessed.

An Introduction to Psychological Tests and Scales Kate Miriam Loewenthal, Christopher Alan Lewis, 2020-07-15 This text is a vital resource for those with little or no prior knowledge of computing or statistics to aid in the development of reliable and valid tests and scales for assessment or research purposes. It serves as a clear, concise and jargon free primer for all those embarking in fieldwork or research analysis. The book contains detailed guidelines for locating and constructing psychological measures including descriptions of popular psychological measures and step by step instructions for composing a measure, entering data and computing reliability and validity of test results. Advanced techniques such as factor analysis, analysis of covariance and multiple regression analysis are presented for the beginner. This new edition has been revised throughout and includes updated statistical test procedures in line with the new version of SPSS and the inclusion of current academic articles. It serves as an invaluable resource for undergraduates and postgraduates across the behavioral and social sciences as well as professionals in related disciplines including those working in management and medical sciences.

Work and Organizational Psychology Christine Doyle, 2004-01-10 In this unique text Christine Doyle provides the student with a cutting edge introduction to the field of work and organizational psychology. The main focus is on recent changes that have occurred in the world of work incorporating their causes, consequences, proposed solutions to the associated problems and above all the challenges they pose for work and organizational psychology. Among the topics covered are motivation at work, the concept of stress and the causes of individual accidents and organizational disasters. Solutions to such problems might include lifelong learning and training, performance management, career development and employee assistance programmes. This lively, provocative and highly readable book will be an essential resource for advanced undergraduate and postgraduate students of work and organizational psychology as well as business management students, managers and anyone with an interest in human resources management.
