Brazilian Amazon Rainforest Global Ecopolitics Development And Democracy:

The Brazilian Amazon Rainforest Luiz C. Barbosa, 2000 Barbosa sociology San Francisco State University provides a global world systemic analysis of the problem of deforestation of the Brazilian Amazon rainforest He shows how changes in global ecopolitics demanding sustainable development coupled with the onset of democracy in Brazil substantially altered the battle over the future of Amazonia He describes deforestation in the region in the context of an expanding frontier of global capitalism and compares Amazon experiences with those of Costa Rica Malaysia and Indonesia **The Brazilian Amazon**

Rainforest Luiz C. Barbosa, 2000 Barbosa sociology San Francisco State University provides a global world systemic analysis of the problem of deforestation of the Brazilian Amazon rainforest He shows how changes in global ecopolitics demanding sustainable development coupled with the onset of democracy in Brazil substantially altered the battle over the future of Amazonia He describes deforestation in the region in the context of an expanding frontier of global capitalism and compares Amazon experiences with those of Costa Rica Malaysia and Indonesia **Indigenous Amazonia, Regional Development**

and Territorial Dynamics Walter Leal Filho, Victor T. King, Ismar Borges de Lima, 2020-08-04 This book brings together a valuable collection of case studies and conceptual approaches that outline the present state of Amazonia in the 21st century The many problems are described and the benefits as well as the achievements of regional development are also discussed The book focuses on three themes for discussion and recommendations indigenous peoples their home the forest and the way s to protect and sustain their natural home biodiversity conservation Using these three themes this volume offers a comprehensive critical review of the facts that have been the reality of Amazonia and fills a gap in the literature The book will appeal to scholars professors and practitioners An outstanding group of experienced researchers and individuals with detailed knowledge of the proposed themes have produced chapters on an array of inter related issues to demonstrate the current situation and future prospects of Amazonia Issues investigated and debated include territorial management indigenous territoriality and land demarcation ethnodevelopment indigenous higher education and capacity building natural resource appropriation food security and traditional knowledge megadevelopmental projects indigenous acculturation modernization of Amazonia and its regional integration anthropogenic interventions protected areas and conservation political ecology postcolonial issues and the sustainability of Amazonia **Tropical Forests, International Jungle** M.

Smouts, 2003-05-29 Marie Claude Smouts looks at the issue of rain forest depletion and global environmental policies Beginning with how the issue entered the world stage in the 1980s despite alarms over the issue in the 1950s Tropical Forests International Jungle explores the complexities of what are tropical forests what role they play not only in environmentalism but in trade health care and almost every facet of natural and social life for those living there and beyond Although for most in the developed world tropical forests have gained a status of part of our world heritage these forests are not really part of the global commons or a global public good Developing nations maintain control over the forests within

their borders and often use the forests as they see fit The international system for mediating the issue is a fractured group of non governmental organizations and transnational networks often with competing views of how to manage tropical forests Despite this seemingly grim picture Smuts is optimistic A changing world view toward forest depletion is influencing countries both North and South Although forests will be used commercially it is a dynamic process that should maintain them far into the future

Nation-States and the Global Environment Erika Marie Bsumek, David Kinkela, Mark Atwood Lawrence, 2013-04-02 Hardly a day passes without journalists policymakers academics or scientists calling attention to the worldwide scale of the environmental crisis confronting humankind While climate change has generated the greatest alarm in recent years other global problems desertification toxic pollution species extinctions drought and deforestation to name just a few loom close behind The scope of the most pressing environmental problems far exceeds the capacity of individual nation states much less smaller political entities To compound these problems economic globalization the growth of non governmental activist groups and the accelerating flow of information have fundamentally transformed the geopolitical landscape Despite the new urgency of these challenges however they are not without historical precedent As this book shows nation states have long sought agreements to manage migratory wildlife just as they have negotiated conventions governing the exploitation of rivers and other bodies of water Similarly nation states have long attempted to control resources beyond their borders to impose their standards of proper environmental exploitation on others and to draw on expertise developed elsewhere to cope with environmental problems at home This collection examines this little understood history providing case studies and context to inform ongoing debates

Amazon Town Charles Wagley, 2014 Amazon Town A Study of Human Life in the Tropics is Charles Wagley s classic ethnography of peasant life in the Amazon with updated material by Conrad Kottak and Richard Pace

Volkswagen in the Amazon Antoine Acker, 2017-09-21 The first history of the German multinational s resounding failure in its global development project of a cattle ranch in the Brazilian Amazon

Stakeholders, the Environment and Society Sanjay Sharma, Mark Starik, 2004-01-01 The role of stakeholders is integral to corporate sustainability as society increasingly demands that corporations play a role in achieving environmental objectives in addition to building shareholder wealth In this the first book to gather cutting edge

Guardians of the Brazilian Amazon Rainforest: Environmental Organizations and Development Luiz C. Barbosa, 2015-05-08 The Amazon region is the focus of intense conflict between conservationists concerned with deforestation and advocates of agro industrial development This book focuses on the contributions of environmental organizations to the preservation of Brazilian Amazonia It reveals how environmental organizations such as Greenpeace Friends of the Earth WWF and others have fought fiercely to stop deforestation in the region It documents how the history of frontier expansion and environmental struggle in the region is linked to Brazil s position in an evolving capitalist world economy It is shown how Brazil s effort to become a developed country has led successive Brazilian governments to devise development projects for Amazonia The author

analyses how globalization has led to the expansion of international commodity chains in the region particularly for mineral ores soybeans and beef He shows how environmental organizations have politicized these commodity chains as weapons of conservation through boycotting certain products while other pro development groups within Brazil claim that such organizations threaten Brazil s sovereignty over its own resources *Chronicling Amazon Town* Richard Pace, Helena P. Lima, 2024-07-03 This book brings together the work of researchers from a variety of fields to provide a comprehensive synthesis of local and regional studies in the town of Gurup in Brazil ranging from archaeological findings to ethnohistory and sociocultural anthropology
